Delightful Book This book is filled with wonderful, fun food creations that kids will like: Prehistoric Eggs (hard-boiled eggs made to appear to be dinosaur eggs), Lemon Lights (lemonade poured over grape-juice ice), Spider Sandwich (peanut butter on wheat bread with cheese curls and raisins for legs and eyes), and so forth. The book is normally paperback, and the only colors useful for the illustrations and page styles is normally orange. The only real drawback may be the design. There is plenty of range, and the dishes are easy more than enough that young children may help out with the planning. Some photos or at least higher-quality illustrations would make the reserve more attractive. Fantastic This book is small yet great. Five Stars great little book, kids will certainly love this experience while creating devoid of cooking in a stove. There are numerous cute actions that the students haven enjoyed doing. Classroom Resource I purchased this book to use with my classroom. The youngsters love helping out with meals because the book looks child friendly. Adding to my assortment of food for kids!
