read this beautiful work of one great man's life This little book is Thomas' "Summa Contemplationis". No review could perform it justice. We live in time, but there is absolutely no time in eternity. In the modern world, religious variations have spawned wars which threaten to engulf the entire planet. A Good ASSIST IN The Process This book has provided considerable clarity to several understandings that were not clear to me but I think critical to moving forward in my contemplation. Thomas Keating writes (p. 58): "Religion needs to make sure that it really is leading and teaching visitors to go in this path (i.e. They are important, but only up to point; Otherwise, it isn't really conference its purpose and getting too involved in externals, rituals and structures., towards contemplative prayer)." If you want to understand prayer, don't read this publication. God could work independently of religious beliefs. He has many ways of bringing people to himself. A modern day prophet This man is so inspirational. they're not leads to themselves. Thomas Keating Another insightful read by Fr. Thank you Dad Thomas! I knew it could be good, but it went significantly beyond that. The interview was especially enlightening. but still the Mystery of God may be the Great Unknowable. Download e-dition to take pleasure from small chunks at the same time Fr. Deeper Meaning Look inside your soul, this will help enlightenment. The 1st section is usually a transcript of a recent 2013 interview, and Fr. Thomas' voice and humor come through as he describes the journey, the seated period, the individual condition. The second portion are reflections on different themes. He's practical and insightful. Coming to the Unknowable Its when we have no idea, or feel cut off, or even abandoned by God ...we've the power to keep the search in the darkness. We've ideas of God, we have heard different alternatives of Who He's.. The man is charming and his charisma is certainly felt in ever phrase. If you are thinking about contemplative prayer or practice it in virtually any form - whether centering prayer, Christian contemplation, lectio divina or by any other name - don't miss that one. Words are just expressions from what our minds try to describe. Words come from thoughts, thoughts result from the energy within our mind. But our mind provides been imprinted with the desire for eternity. It must be a bedside read for all of every religious affiliation and also by those that detest religion. A fascinating read Thomas Keating is a grasp of the spiritual existence and I have enjoyed all the books he has written through the years. Its the desire to search for love and peace and pleasure this is the gift directed at us and the power to continue the search. I cannot endorse this book as well strongly. Our real house is eternity. Its alone we learn the vocabulary to speak and listen. This book points out the path of reflections of the Unknowable. Mankind must be raised up all over the place to realize what Fr. Don't miss this opportunity for more development - I'm rereading it and getting ultimately more nuances from the second reading. Just even more Keating and a joy to learn simply because he invites us arrive mainly because our pilgrimage deepens. God is usually phoning us to come to Him, He delivered His only Son Jesus showing us the method and even the feeling to be abandoned is usually itself a contact to come home. Don' miss this chance of deeper development. It gets to to the soul of contemplation, and inspires me to continue my prayer. Of course I am a fan of Father Thomas Keating, a Benedictine Monk who opened contemplative prayer to the lay person. I've a lot of his books which one obviously reflects his own trip and where he is in his relationship with his God in 2015. He's now in his 90s. The desire to know is a indelible imprint on our brain and gets to beyond time and energy to the Great Unknowable. I've many hard copy books of TK, but the last few I've downloaded on my iPad, accessible and bookmark, since these are books to take pleasure from, also as a springboard to Lectio Divina. His wisdom is available to all who read his books and this one is not any exception. I recommend this book to everyone. If you want to pray, read this beautiful work of 1 great man's Deepest understanding This is perhaps Keating's finest book. Keating. He continues to inspire, inform, and moreover let's us understand God loves us. Five Stars excellent copy Five Stars Wonderful book to read, thoughtful,

hopeful. Some individuals have been so damaged by religious misinformation or malformation they can no longer go by that path. I loved every second of reading and will read it again and again!
