I am a 16 year cancer survivor who has been ... That Cancer is a bacterias. Livingston's protocol each one of these years. A goodish browse but disappointed..A fantastic book.. What do she discover?I'm still alive and very healthy!!! Among the best books I've read with the truth in years.. Find if the science makes sense.I had a big tumor with very aggressive cells too.Happy :) Excellent Overview of True Cause of Cancer I read the original version of the book in 1985, and it changed my whole thinking about cancer, what it is and how it lives and dies. Livingstons' analysis much more closely... A must read to save lots of lives, possibly yours..it is truly compassionate care.. It is a goodish go through but disappointed that its become another vaccine or medication related option. Millions of people die because the informed consent regarding treatment options is bound to cut, burn off and poison. Its the largest fraud in human history.Do yourself a favor. No chemo, no radiation. :) Recommend everyone understand this book.. Four Stars Good book, exceptional shape.. Well written and excellence in ?esearch. Everyone must read it fir the sake of a loved o BBC e who may be maltreatment by well meaning doctors.AM We a foil hated reviewer> Science should be taking a Dr. Dr. She was vilified by the mainstream tumor establishment.. I am a 16 year cancer survivor who has been using Dr. And she proved it. What was the effect. Virginia Livingston-Wheeler was a really pioneering spirit and discoverer who was fearless. No profit treating the actual cause of cancer. Trillions in dealing with the effects. Happy: ) On time service! No, in fact a tumor survivor, who actually lived because i relied on her theories for treatment. Five Stars A must go through for anybody with cancer cells within their body - guess that includes everyone! examine it with an open brain..I believe you can not bother making a choice - unless you know very well what ALL of the options are. This is the missing little bit of the puzzle..
