The author obviously wrote more about Marilyn. Don't get me wrong, I'm way more of a Marilyn enthusiast too, but this author clearly doesn't like Jackie. I still enjoyed this book, but it was very annoying how biased it really is, because neither is ideal, but don't pick Jackie if you cannot display her some respect. A light browse. For just about any Jackie and Marilyn admirer Very funny. I definitely recommend this to Marilyn followers, but watch out if you are more a Jackie fan. A great and sassy read A three-star ranking probably isn't fair. I've very much enjoyed the book, and of course who wouldn't question while reading it, "Am I a JKO or a MM? I wanted to visit this writer and punch her in the face many times while reading. Fun read It's a great read (so far) and I have other Pamela Keogh books, I enjoy her writing and wit. She talked like everyone wished to be a Marilyn. Crazy about it I love love love this book its so easy read however its extremely deep, everything is practical and you even study from what your reading its not only entertainment and its very fun the writer of this book is definitely a great writer and she makes this reserve so fun! What's not to like? She discussed Marilyn like she was probably the most gorgeous women with the best figure and she Possessed everything on the planet and Jackie was only a boy with a 12 yr old shape that attracted a few guys. Generally, it is completely mindless, but there is some solid insight into what the lives of the two extraordinary women were really like." She made Jackie look like a bitch, excuse my language. I am the contrary. If you are looking for a satisfying, light read, that is definitely a great choice. Are You A Jackie Or A Marilyn? A great and entertaining publication to read, it includes interesting personal information and information regarding both women, who, in comparison, were polar opposites in many ways, yet they shared some areas of life in common! Great Publication!. But keep the Fox News pictures to the Paranoid Liberal websites please. This book is well crafted, and clearly I did not understand that much about JKO and MM personally so I learned more about each famous personality. Also, interesting to check out both women and how much they differed and what their sexuality and history said for each of these. I picked this publication solely because of the "Mad Males" reference in the name, and I certainly knew that it might be pure fluff entering it.? Im a Jackie Gal completely, but this author didn't reveal Jackie to her complete potential. A real page turner!! Informative If you are a Marilyn expert you probably won't look for anything new, except the news (to many folks) that Marilyn was planning to remarry Joe DiMaggio 4 days after her death. If you want Marilyn and do not know much about her you'll learn some points. I enjoyed reading this reserve over a two-day period with a cocktail at hand. I didn't know anything about Jackie. There was a lot right here to discover. A fun book overall! Cheap shots aren't very smart and in cases like this it had been irrelevant. It's part-bio of Jackie O and Marilyn, part style guru, part gossip rag. Could have loved a Audrey and Marilyn evaluation.... I love it I possibly could read this reserve another million time rather than get tired. Five Stars Perfect! Five Stars Grest book Loved however the author favored Marilyn more. I loved this publication and couldnt put it down. But it was extremely apparent and annoying how much even more the author talked about and made Marilyn seem like the better person to end up being. Thats fine if the author personally favored Marilyn but dont let it affect your composing.. She even said it. "For best results, end up like Marilyn. It's also an instant and fun read, with a quiz to help you determine if you are indeed similar to a modern-day Jackie or Marilyn, or even a mix of both. Its accurate though." I could not really put the publication down! Love it but it's too biased I like this book, but wow is it BIASED. There is 2 whole pages dedicated to Marilyn's hair plus they didnt even put in a small chunk about Jackie's locks! However, the publication is actually much better than I thought it will be. This really is an excellent book but if you get upset over this 'Jackie vs. Marilyn' controversy, like myself, dont, or do. It made me like Jackie more somehow.
