What a smart way to understand the alphabet while viewing pics. of your preferred subject. I was excited to receive the books. Wonderfully created and beautifully illustrated. So it's not only the kids who appreciate reading 'A is certainly for All Aboard!!' I bought the books to be donated to your early learning center library. I'm always pleased to go through this to the kids (which is often). Amazing shiny artwork that any kid and parent will be attracted to. Crisp and apparent big letters for alphabet learning. It'll make a great present for my nephew this holiday season. This is a fabulous book! Aren't the common illustrations just beautiful? An ideal gift for any kid. I have caused autistic children for the past 8 years and some had train obsessions. This book will certainly catch the eye and mind of any child, especially those that adore trains. Bought this publication for a 4-season old boy who currently knows the alphabet melody, but doesn't yet recognise the letters of the alphabet when they're in the printed web page.. Great content material and a classic display of a popular theme. My nephew adores this book - it's challenging enough that as a solo reader it can stick with him as his reading abilities grow, but for now he simply loves being involved by all the pictures and shades, and adventures of lifestyle on the railway. A delight for any age group! Great book! "A" class!! The book is fantastic for helping him for connecting things - it's also great for helping him associate letters and terms. Great book for Kids!!! Fantastic learning tool, beautiful packaging - I'm eagerly awaiting the Kluths' next installment. Smacks of Quality! A fantastic publication for fun & My twins and I really like it. As an initial time parent, it really is hard to know which books could keep a child's interest. Just about everyone has learned many new facts about trains that we got no idea about and that the kids want to hear and browse to store within their ever-expanding brains! The illustration is normally beautifully done. This publication has quickly become well known bedtime ritual. Five star rating A heartwarming story for children of all ages. They simply loved the illustrations too! You as well as your children will love it and examine it over and over. "ALL ABOARD!" for my kids! My males 5 & 7 love this reserve. The lettering and photos and big, bold and shiny. A is normally for "All Aboard" makes learning the alphabet fun and interesting. Highly recommended. A is for "Awesome"! A is for "All Aboard" An excellent book. My two little girls just love trains which book was an excellent aid in their learning to read process.! If you've ever enjoyed viewing a train go by and found yourself day dreaming about riding the rails, the watch from the front of the train or the wistfull nostalgia for a red caboose, this book is for you. Takes me back again to my own preferred books as a kid. Everyone Should Get On Board! A is for "All Aboard" Love this book! Nevertheless, it's an excellent kids' publication, and there's much here to capture kids' curiosity and ensure they will have fun while they learn. The illustrations are fantastic! Plus, he adores the illustrations - and whatever can keep his interest for longer than 30 mere seconds is, in my view, a great thing! We received this book as a gift and our kids absolutely love it, smart way to instruct the alphabet.
