have trained with as gifts to close friends/ It includes a little of everything . Great for gift-giving., might be the way to go. Great gift for a grandmother who likes to read to her grandchildren and do projects. .. I adored it & Beautiful book! I treasured this publication and wish I purchased one for myself aswell. This book is definitely a keeper. It's jam-packed with tales, games, suggestions, and fantastic quality recipes which grandma and grandchild can make together once the grandchild is older.Recommend this book not merely to recent grandmothers, but to seasoned ones aswell; it's a compendium of fun activities to do with your most recent additions to the family members. Just love love love this! I recommend this for ladies with grandchildren from 1-month to 10 years old. It makes an excellent gift for a baby shower. Grandmas need love too! Lovely Gift for fresh grandmoms I bought this for my new grandson's "various other" grandmother. She was delighted with it. I appeared through it after it arrived and before I gave it to her and chose that I'll need to get one for myself. Lot's of video games, crafts and specifically nursery rhymes and tales. A real treasure for all of us oldie but goodie grans. I've still left it on the shelf but when I have time I'll figure out how to use it better. It includes a large amount of nostalgia of,pictures, rhymes and stories. The book is indeed thick it's challenging to keep open particularly if trying to hold a little one while reading. Too Much This isn't what I expected. It is also a nice book just to browse in. I bought this as something special for my boss who became a grandmother for the very first time. She enjoys the book and has told me many wonderful stories about things she's shared from it with her brand-new grandchild. Gave this to a pal who offers two young grandchildren. Poor packaging This book is a replica I received a decade ago except for the hardcover has changed since. I've one like it that I received in the past and had lots of uses for it. Perhaps retelling tales, etc. Everything is sort of crammed onto pages with fairly small writing. But however when received, it was not packaged properly, and at least 10 webpages from the low right hand part were folded over at least 2-3 inches. Wonderful Book This is a wonderful book to gift to a fresh grandmother. I received 1 17 years back and continue steadily to gift ladies who are dear if you ask me on the inauguration into grandparenthood! Childhood goes by so quickly and this reserve will enrich the knowledge of bonding with your newest little treasure. As a 1st period Grandmother I am having the best period reading, singing and playing with my new grandchild with the help of this book. Amazing illustrations. So a lot of things that I forgot from my very own childhood and more! I recommend this reserve as a gift to all of your friends who are fresh Grandmothers or just buy one for yourself. Have fun and congratulations Grandma! She loves the book. The book is wonderful, and have liked it with both of my granddaughters. Any grandmother would love this particular book. I bought this as something special for a pal, and didn't have time and energy to send back and reorder. Book superb, packing very poor Very very pleased! is a first-period grandma to welcome her to the best club on earth We purchased this for a friend who is a first-time grandma to welcome her to the best club on earth!therefore much worth sharing with a grandchild. Great Reserve for a fresh Grandmother I buy this book for each new grandmother. So many tales and activites I recall from my childhood.... Fast delivery Five Stars Just perfect for a Grandmom. There is a great companion grandfather reserve as well. Great resource. The best new grandma gift. A great book for new grandmas! That is a most delightful and useful book. I loved it &Delightful!. possess given it as gifts to close friends/ Five Stars It is a gift for my sister who will soon be a grandmother for the first time. Thank you.
