All the help you can get It has now been 5 yrs. Lots of good sense basics for mother or father and adult kids. All the help you can get, and more. Great book. Strongly suggested Great book. Strongly suggested! Great read! Assets are excellent . It is noncommercial, non-political. What to Think about regarding a move. I really liked this book...It was informative and made you really look at both sides of a parent relocating. The quizzes offered honest insight as to motives and parent-elder-parent relationships. Gave me a lot to take into account before "jumping" correct in and shifting my Dad. This book is excellent and a chance to I wish I had bought this per month ago !! for the road ahead is not going to be easy. A must read. Good book particularly if caring for parents with medical concerns Good book. since mother moved in. The book is quite helpful, for the street ahead won't be easy. Focused mainly on elderly parents with medical concerns which is not our circumstance. Visit [...!] It is a website for Caregivers that have questions. So glad that I read additional reviews and purchased it! It helps caregivers to talk about their questions as they look after a parent. This publication is excellent! Excellent book! M88 Five Stars Absolutely LOVED this publication! Five Stars Thoughtful and Insightful Five Stars Can't say enough concerning this book.! It really helps you know very well what elderly parents are going through! Offered better suggestions to handle the situation. This book is excellent and a go to ! Love all of the stories/experiences especially the parents perspectives. Would recommend. Mostly of the books on this topic with audio advice! I do recommend it!. Such a great guide to living with your aging parents ! A few of the items you would not need even thought of!
