Bug out Bag Material Makes for a great read for those who have not experienced the woods, for any amount of time. No extra crap. Will help in making the ten kids even more alert to there surroundings. I had to check it out. Pretty good but already knew most of the info it has in it. SAS Pocketbook may have a bit more info, but then most people don't happen to be every climate. Five Stars This little book is packed with good information. a must have book for everyone, it makes you . In the end, this is a useful take-along reference for experienced outdoor adventurers, however, not an all-encompassing information for the inexperienced.. Exactly What the Title Implies This book is exactly what the title says: a condensed guide to short-term survival. Not bad but already knew most of the info it has .. Good basic book. Decent book for the utilized price..But was also in the Army for 6 years while a sniper a must have reserve for everyone, it makes you think that regarding what your location is and what you are really doing about your safety, 9 Five Stars A MUST have! One Star It was a gift for my grandson who's an avid outdoorsman, and he refers to it frequently The title says it all. It has a large amount of good information about how exactly to prepare for a vacation, how to proceed when you get dropped, and how exactly to survive several days only in the woods. Another very basic pamphlet level information. Information is good and direct.. Very practical I've been to the Boundary Waters a couple of times and had no problems, but I kept wondering "imagine if." THEREFORE I got this reserve and helped me feel better prepared for the imagine if. I'd recommend it to anyone who would like to feel a bit more prepared for the unpredicted in the wilderness. Get this one Easy to read and understand. This is really well worth keeping in the bag. A good majority of survival scenarios happen because of unexpected injuries the resulting decreased mobility caused by said accidental injuries. Gets the small children started thinking. By short-term we have been talking 3 days or less. It isn't as in-depth ... The title says it all. It isn't as in-depth as its mother or father that he published some 20 + years back, and it wasn't designed to end up being. .. It's a "pocket guide", and this it does its intended purpose very well. Help to make no mistake, it offers good info and will be a worthy addition to a bugout handbag or survival kit, it isn't a definitive manual. It is without first-aid though. Readers digest version. If you would like more info, Fears has an excellent book, "The entire publication of outdoor survival."
