Great publication for tween boys.. One very plus side to the publication it that the writer has in fact used these skills.. we'd to get this second one for the other on Amazon so they could quit arguing on the book. They spending some time marking their favorite pages & creating different snares in the backyard. They run home from college to check on their snares. Five Stars I enjoyed scanning this book to mostly review what I did so in existence and what I could've done differently. Writer shares his extensive experience If you're searching for an overview of many skills for outdoor survival, this is an excellent general book. It can both primitive and none primitive abilities.. they adore this reserve. Addresses foraging with plant photos, hunting and trapping with good how-to diagrams, fishing, a few survival stories,. So there are gems in here even for all those with experience. Publication seems durable with reinforced corners as well which I appreciate. Excellent book Excellent book. Great graphics, plenty of details and details. Great gift. He writes from a location of experience- not really theory... Great Great information in this book Great Another part of an excellent series Meh. Great! Great book, has a great deal of stuff in here that's common knowledge and things that give veterans a wake up call to. Great book for survival, camping, or simply plain need to know more about. Provides enough detail for someone to practice basic skills. Definitely worth the price Great starter book. I would suggest it to anyone. Good general info for someone just starting to prep nothing at all new here, but great details for anyone who has no idea the place to start. A good addition to any survival library. Some things aren't explained in great fine detail, but it will provide you a good idea of things you might have overlooked Read it then go for a walk in the woods, let your imagination run wild Good bathroom reading materials... Because of its scope, it doesn't give a large amount of detail on anybody topic, so it has its limitations. Meh. I have 11 year aged twins & One of them in fact purchased this locally initial &
