Highly readable, coherent, resource to be prepared -- everyone should have a copy. Great practical advise for surviving in an uncertain world.! Very readable in a nutshell sections with a easy on the attention layout. While some info will become for areas that don't involve everyone (not everyone lives in Tornado alley, or where there are hurricanes) the weather these days is usually changing and you never know. My condition got a verified tornado appear in a residential region - a little tornado that did just structure damage - however the Pacific Northwest isn't known for tornadoes.. Strongly suggested. Don't allow it stress you out - just prepare just as much as you can and you will be able to take care of yourself in a tragedy, and maybe even help others. Everyone should examine this and consult with their families! There is quite a bit of good information in these manuals and at the purchase price they are being offered for at this time how can you not grab a couple for your kindle fire or computer/tablet. Would be good for someone just starting out. but it's a great reference tool to have Bought it as a gift for my husband, he loves it! He said, it contains a lot of information that he already knew, but it's an excellent reference tool to have. Would be best for someone just starting out Basic information. Needs more detail Good summary of certain emergency situations, but needs some drill downs in certain aspects. It certainly is easy to say wait for emergency response type systems, but what do you do if indeed they don't arrive One of the better books out there.readable and clear to see. Vast majority of the publication involves preparing for survival in an crisis - no power, no town services, etc and that pertains to everyone!. I have about 15 books such as this and this a single is in the top 3,. Lot's of great tips and advice! Lot's of great tips and advice! Emergency Survival Manual information rich Manual Bought a number of these manuals and enjoy reading them. This publication would advantage anyone and should participate every homes library. Five Stars Found the book very useful for the changles we have been seeing in our daily lives... Help simplify concepts for everyday carry. Descriptive Great book Great book Good book Well written plenty of info. Very helpful on many levels of, self-defence, survival and security... Four Stars Looks most effective on a large tablet, like the Fire HD 10 or Nexus 9. Ok - HOWEVER, NOT All I hoped for Book feels like it has a lot of filler. Five Stars Great book!
