and the wording makes it simple to understand everything you might need to know in . I would recommend this book for everybody, not just travelers, it's filled with info to keep you and yours safer I came across this book to end up being outstanding.. I found the Green Beret Pocket Information to Terrorism Awareness and Personal Security book by Brain Morris to be extremely informative, and the wording makes it easy to understand everything you may need to know in a life or death situation. My Family's go-to for home and travels specifically this holiday season My family including my teen-aged kids (high school and college age) have utilized this guide book intensively since receiving it. Excellent Resource! Additionally it is super for everybody to be more aware in their own local environment. Being Prepared Can Save Your Life It really is surprising, even in today's post-9/11 world, how soon people forget about what lurks on earth around them. This soldier knows some stuff! Buy it, you will learn a lot. Five Stars Excellent prep book for travel outside the US. Five Stars Superb information and well written. This is an excellent refresher for them, but also for those looking for a good place to begin, this book will probably be worth the effort to open and begin reading. Those that already take "being prepared" or like to make sure they are not being rooked, will find lots of familiar materials in this publication. Morris displays her in this quick, useful guide how exactly to be aware of your environment and take simple steps and learn simple methods so you won't be a focus on or survive if you are. Avoid being a victim and do not think someone will be there to save you. Discover also When Almost all Hell Breaks Loose: Stuff YOU HAVE TO Survive When Disaster Strikes, SAS Survival Guideline Makes an excellent gift as well. The Prepper's Blueprint: The Step-By-Step Guide To Help You Through Any Disaster.. It really is useful for anyone and everyone who travels. Five Stars Great common sense guide for just about any traveler. You never know when bad people intend to do harm and you just are actually their target. But the understanding in this book, enables you to alert and aware, giving you more confidence and making you such a hard target, most bad guys will steer clear of you. Though designed for individuals who travel abroad, with our porous boards here in America, and the questionable individuals walking across it daily, this book ought to be a must examine for those who are willing to stick up for themselves in an emergency. Everything in the reserve is applicable as soon as you read it. We have learned so very much by increasing our knowledge with practicing in the home protection especially while holiday shopping, as well as using the info for our upcoming travels that including using airports, rental cars and booking hotels of unfamiliar areas. The term "Situational Awareness" must be applied by everyone with today's uncertainty. and Four Stars Has some very advice, esp if travelling out of the country. Great information rolled directly into a concise book.
