I simply recently started gathering a nice collection of stones and crystals I just recently started gathering a good assortment of stones and crystals. I started with the black tourmaline and it is becoming an obsession from there. As my collection grows you sort of neglect what each stone is helpful for and ways to combine them with others. This is a very simple head to and its ideal for a quick reference. I would recommended this to anyone who is starting out and attempting to learn the essentials. Of course this opens up Pandora's container and I'm so wanting to learn more :) Happy meditating! Great for getting started on your own crystal journey! Information in this reserve helped me concentrate & It's simple, clear to see, with nice pictures. Great for beginners!. Love this book Love this publication! I read this reserve cover to cover, then attended a gem & mineral show. I bought this book to help me learn about my new desire for crystals, and I love it! balance my energy. Neither folks are aware of the powers of stones and crystals, which means this book is a great start for us to learn. Today crystals, aroma therapy & Great for beginners I really like this book so much. Great resource guideline to begin your healing journey I accidentally downloaded this publication, but now realize you can find no incidents but divine intervention. I sat down with this publication and finished it within an hour. i would suggest it to any beginner wanting to know more about crystals and curious about a bit about how they effect us in existence to! Defiantly worthy of the money! The writer was even thoughtful plenty of to include some techniques in how to use the crystals for everyday life. It's been an excellent beginner book!. I love that this book goes into details for newbies like me, about cleansing and just about every question I have as a beginner!What I don't like is it doesn't give photos or details into much crystals or types! Very pleased with this purchase. Also has additional information on crystal prescriptions, grids, and chakras. This is an excellent book for someone like me starting out with studying crystals and stones. Basic Meh Looking forward.Great beginner book with information on the place to start but We required another for more information on the crystals! This book is crucial for any crystal lover!! This book also helps show on how to cleanse your crystals should you have began your own collection which is so helpful. I so recommend. Beautiful images and concise details. This book taught me so much - but in an actual enjoyable fun to read way! I am so enthusiastic about this book. Its ideal for a beginner and has some actually meaningful and thoughtful rates in it aswell. Such a beautiful read - no irritating sciencey complicated text - ugh! You need!! Informative This was very informative for a novice crystal collector. I've usually found crystals so gorgeous but never truly understood the real power of these.? Wonderful book for beginners What I truly loved about this publication is the breakdown of the properties of the crystals and how they may be used. I love that this book goes into details for newbies like . It truly explains in depth Crystal's and there indicating. Great reserve for a beginner. Grabbed the paperback for my daughter and may get the ebook for myself for a discounted price, that way I could work alongside her. I had no understanding of this subject matter but was instantly intrigued after obtaining this publication. meditation is an integral part of my daily life. I have a small collection of crystals right now but after scanning this publication, I am so inspired to get more to add to my crystal work. Great for beginners Love! Great info, specifically for us beginners. Easy and interesting reas aswell. I will be buy the hard duplicate for better access. It's an easy read and the layout/format is quite helpful.. I anticipate educationing myself on the benefits of crystals and the tales behind the many crystals out there. Like the book and happy with it Very informative book
