Tozer impresses me as a theologian for the masses. This book will challenge you to examine your romantic relationship with God the Holy Spirit and the part you want to take part in both now and permanently. Everything He did is definitely something we can do through the energy of the Holy Spirit. "The impulse to pursue God originates with God, but the outworking of this impulse is our following hard after Him." Tozer explains the paradox of the significance of pursuing God. Even though as Christians we are going to heaven and we encounter God's unchanging love, there are still privileges of continuing to dive into God. Very Satisfied this is actually the second time I have purchased this book out of this seller and each time I have already been 100% satisfied.² "Self is the opaque veil that hides the face of God from us. Awesome book! There is nothing on God's end keeping us from experiencing the presence of God. Yet, most of us do not encounter God individually or experientially in lifestyle. We maintain ourselves from God.³" The only reason I offered it four stars instead of five is basically because its language--probably by virtue of its having been written in the 1940s--was a bit stilted sometimes. I recommend it to anyone looking for God." If God is real, then He must be highly relevant to our lives.. The prayers he includes at the end of every chapter are worth recording and including in types regular prayer time. they minister constantly to believers who experience within their breasts a longing which their teaching just does not satisfy. God did not forget how exactly to talk once the Bible was completed. The bottom line idea that Tozer wishes to portray is normally that we must use the analogy of any personal romantic relationship we wish to cultivate.⁵ The point Tozer makes about the veil that separates us from God will do in itself to describe our problem. That is still a kind of radical thought for me personally, but Jesus did nothing on the planet out of His Godhead. Here are some of the items I really like about this reserve:¹ The key is to continuously gaze at Jesus. Thanks a lot. Quick turnaround." Whatever we do we should do it all for the Lord. would recommend the Quest for God to anyone attempting to proceed deeper with God. I am certain if you read it you'll get different things than what I laid out above, but I really believe whatever you obtain would greatly help your romantic relationship with Jesus. Convicting, Helpful, AN EXCELLENT Work This may be the most convicting book I've ever read. I do not are the Bible in the books I've read. It's the inspired Word of God and therefore in a course of it's own. A. Quick turnaround.Among the best Books I've Ever Read If you want to go through the joys of Christian living, I highly encourage you to learn this publication. His insights are deep but his style is straightforward and easy to understand. I will not try to execute a point by point review. I'll just state that if we, professing Christians, will truthfully consider the factors he makes we will come to a better knowledge of what helps prevent us from having the intimate relationship with this Creator that He clearly desires. "Jesus taught that His power lay in His continual appearance at God" (John 5:19-21). Growth You will probably need to read this book many times to grasp its true meaning. "It is the nature of God to speak, to communicate his thoughts to others. Cultivate a relationship with God I read this on my Kindle, and my 14 pages of highlights and notes are testament to the fact that I found it highly interesting and helpful in my own understanding of how to have a personal relationship with a full time income God. He sees that plans He has for your life and wants to business lead you into them. "We have nearly forgotten that God is usually a Person and, as such, could be cultivated as anybody can." If we wish to have a better romantic relationship with a person, we don't go out and find out about it (the irony of this statement in a reserve review does not get away me).⁴.... There have been also a few times when I thought he crossed the range into preaching instead of sharing, and also making assumptions about his readers and what they already accept or believe that might not be true. The entire book is exploring the problems to do this with a higher power we can not see.He does not shirk the issues of the or the inevitability of doubts, fears, and digressions. This, to me, made the publication more authentic. "Whoever will listen will hear the talking about Heaven... Book Nice book. "To a lot of people God can be an inference, not a reality.we spend time with that person and try to find out what makes them tick.Among the things I most enjoyed was the prayer by the end of each chapter. Regardless of vocabulary, these felt very modern to me, and resonated with thoughts and feelings that I struggle with in my own prayer lifestyle and spiritual journey. Exactly as advertised. If you're looking at a difficult duplicate in a bookstore, the Introduction and Preface will provide you with a great feel for it.Believing, then, is directing the heart's focus on Jesus. Shipped fast and found its way to great condition.⁶ Excellent Word For Today and Any Day This is a classic book for anyone, first-time or long time believer in Jesus. Tozer's goal of this book was to assist God's hungry kids so to get Him (via preface of reserve). Just as advertised. W.When you have a Kindle, download a

sample and see if it seems appealing to you. "One of the greatest hindrances to internal peace which the Christian encounters is the common habit of dividing our lives into two areas – the sacred and the secular. Top quality. Not for the Biblically Astute EASILY could give it 3 1/2 stars I'd. One of the most captivating sentences was in the Preface that read, "There can be today no lack of Bible teachers.or head to lectures about any of it.." God isn't silent." That is quite a sentence that would make the most religious person matter about their time in church. The author stresses that people should instead of being so religious consider having an individual relationship with God, that's just ours and not focusing on the way others would advise us to worship. I was a little bit apprehensive in the very beginning of the publication when the author referred to God as a person placing him on our level. However, as I continuing to read more of the publication the author was making the assessment of us being made in His image; as a result, we can contact upon God and ask Him for whatever we need just because the prophets of previous did. As the book progressed, the author spent a lot of period summarizing Bible stories which was a little bit redundant for anyone who is Biblically astute. The publication started to read to a person who had very small knowledge of the Bible. God is looking for people He is able to lavish His blessings on, and the ones people are the ones who are diving into their relationship with Him. That is a gift for a friend, thank you for your faithful service!" Jesus' loss of life on the cross removed the veil that was hinder us from coming to God! It will both convict and speak to you. Tozer seemed to be able to observe deep in my own soul and say with such eloquence all that I sensed and experienced and answered questions I did not find out I had! I plan to read it again taking notes and writing down his many statements that produce for excellent quotes. But it is well well worth enough time and effort. I love this book and will return back and read it over and over! Resonates with the road of my life in faith in God. This book brought me joy and a deeper longing to listen to God's voice in my daily life. He is a deduction from proof which they consider sufficient, but He remains individually unknown to the average person.
