..! I've never laughed so consistently while reading a book..! Just okay I thought this book was a little corny.. I experienced to come in the home because I was scared the neighbours might believe I had dropped it!.grandpa Rules I started scanning this book seated on my porch while having lunch.with coach capable points to be discovered hroughout, mainly with tongue in cheeky first grandchild comrs in a couple even more months Five Stars great for first-timers .....it WILL be referred. It is insightful and helpful and also very entertaining.. It really is hilarious!.. Humor where needed An easy and enjoyable go through..... A fun publication that brought a couple of laughs to your day! Would have liked it even more if the primary focus was on the grandchildren. Sweet and cute Bought this for my dad for Christmas, while I've simply had his first grandchild. He and I both found this to be a cute read. Excellent and Funny A pleasant surprise! majority of his time trying to make the publication funny and it was funny The writer devoted nearly all his time trying to make the book funny and it had been funny. writer1 Delightful book that captures the grandfather experience especially well. It's essential for first-period grandfathers (who should allow grandmothers to take a peek, too). I give grandparenting prenatal classes and I bought the book as a possible reference for my college students. Funny sometimes, but generally corny and juvenile. I assume juvenile was the state of mind at the time. slow shipping shipping was very slow. Item itself was good Must Read. Very entertaining it may seem me biased but, it is not so when I say, that is a good read and incredibly entertaining.
