If you wish to have an excellent view of how exactly to prepare on all levels for ... I read many blogs on the internet daily and in addition many books each year. If you want to have an excellent view of how exactly to prepare on all levels for all types of crises, or have friends that you would like to inform and may only buy 1 book, after that this is the book for you personally. It tells us how exactly to prepare for disaster if we work or live in a high rise building. I informed several of my friends about it, they all bought one. We all agree that this a good book on being ready for all the events that can happen nowadays. This book finally offered us very useful specific guidelines for exactly how and what things to prepare. I bought & I have already made some adjustments. Simply the "check lists" one of them book are worth the price. Must read for everybody. He has seen and lived thru the occasions he describes. A book every head should read! This is an excellent prepper book for the beginner, church or community group. The author refers us back to the government too much . Exhaustive and Well Planned This book by Dr. He covers all the basic topics, and then some that you might not have thought about. Williams is an exhaustive debate of the basic substances in a well-balanced family emergency plan. Get yourself a copy of the workbook by the same name which will help you place his plans into motion. I simply completed my family's emergency planning notebook and used this book as my basic guide. Williams also talks about home security/crime prevention, self defense, medical, sanitation and hygiene, treatment of elderly and handicapped people, important docs and how to store them, crisis communications, and much more. Four Stars I like it Five Stars Great information in getting prepared This book will help prepared for a crisis. Written by a doctor, become familiar with what resources are around you, and how exactly to organize and ready your family, group, church and community before a tragedy threatens. Highly Recommend This informative book is chock filled with information.. The author refers us back again to the government an excessive amount of. I thought it could be even more of a self enough type book.. Aside from the apparent, it recommends all kinds of things that the average individual wouldn't even think about, like how to escape a subway. I purchased a copy and browse it. Dr. It really is wise to read additional books on this subject matter and consult the Home Land Security and FEMA websites for supplemental and more descriptive info in some areas as well. The checklists make it easy to understand just how prepared you really are. Excellent Excellent read Essential read for Emergency Preparedness For years our State Government has urged us to have crisis preparedness kits in case of organic disasters, such as for example earthquakes or storms and disruption in communications etc. Most of all, it "opens up" your brain to all or any the events that could happen today. Add to your library, tell your friends. Every home requirements this book if worried about 'how' to get ready. Important book Important book for our occasions. The author of the publication has served in a lot more than 100 countries around the world. Great book and a must read for everyone, really. It is very helpful with clear actions. Not hard to do, but so many little things one would not think about. Have the peace of mind knowing that your loved ones will be prepared for whatever comes. I highly recommend this book. It had been very comprehensive about how exactly to prepare for any emergency. copies and handed out to my neighbors.
