her most beautiful and fun reserve yet I had just finished one of the other two books I own by this writer and pre ordered this one. Nice small book but really female dominated This is a cute idea and the book is quite attractive with oodles of colorful pages, bright lists and fill-in spots. Produced simply for me. - however they are gorgeous and I usually finish and enjoy the process. I've looked up the prior books too because they will make good presents for a few friends and family members who I believe would enjoy these too. Beautifully written and designed! must buy! happy to add it to my collection of her books. Like all of Moorea's books, this one is BEAUTIFUL inside and out! Book Club Favorite My Book Club users are "reading" and building their lists so we can compare and contrast and discuss them in our next conference! This book makes a great gift for newly weds, anniversaries, birthdays and more! I am loving filling mine out every week. Highly recommend! Taking some time each day for reflection I love this book a lot more than I likely to. I have never been person who enjoys keeping a journal but I do enjoy producing lists and reflecting on life and what I have to do to improve myself or my associations so the format of this book is right up my alley and I enjoy the time spent focusing on the lists. With a journal it's just free-thought, but this gives me a direction. Many thanks Moorea for creating these list treasures must buy journal an incredibly warm, thoughtful journal. Beautiful and Thoughtful I love all of Moorea Seal's books, but this one is the most innovative and inspiring yet! This journal is ideal. I'm loving filling it out and also have currently gifted another duplicate to a friend. It really is truly gorgeous and the lists are fun and believed provoking...but that's where the interest ends. If you need to deepen your connection with a loved one - this is simply not the best way to begin. Made for me personally! This is what makes men (and some women) want to run the other direction. It isn't deep nor especially meaningful. It's chick-lit all the way. I received this and the accompanying 52 List Postcard collection, and a Moorea Seal gold pen to match-- a really fantastic gift. Sometimes I think they're a bit pricey for a reserve to make lists - though I do want to make lists! It's a book filled with things to make lists of. I anticipate a lot of laughs and giggles over some of the answers! A fresh list for every week of the year. If you love list making and journaling you need this book. 52 Lists for Togetherness is definitely thoughtfully created to help stimulate deeper connections to those all around us. A terrific way to get to know one another better, especially since we have newer members! Composing prompts on every web page.
