Only a glossing over This book doesn't get into any detail about the different skills it mentions. You couldn't take this publication and learn survival abilities. It's just a somewhat interesting reserve that is very fundamental in its detail. Without, perhaps, enough in scope to really acquire the needed skills it still provided a satisfactory picture of them... Without . few things that i havent learned from other books pretty good a couple of things that i havent discovered from other books pretty good book Four Stars Just as described A convincing presentation of an ancient technology... A convincing presentation of a historical technology.
