She experienced compelled to explore the lives of these fascinating young individuals in a deeper method. What presents would they bestow on the world? What would happen if we allowed people that have autism the space to build up at their own pace, for their ideas to be considered, for their strengths to flourish, and because of their life problems to be supported? When her boy received an autism diagnosis, Tera Girardin often reflected on these queries. As she and her family members became immersed in the autism community, Tera noticed firsthand the difficulties, joys, and extremely varying experiences of these with autism and their own families. What if we went beyond autism awareness and started practicing autism admiration? Through the zoom lens of her camera, author and photographer Tera Girardin captures the stunning faces and inspiring stories of thirty different children with autism. Faces of Autism features full-color pictures and messages of inspiration, admiration, and celebration of autism

We hope this book helps to propel the autism recognition that thankfully appears to be gaining traction in recent years. Great gift idea for anyone who has a cherished one on the spectrum or for anybody wanting to instruct diversity and inclusion! many thanks to . True stories filled with love What beautiful children.. come up with so well!!! Beautiful gift for special families!.. Tera is definitely such a right down to earth writer and has generated relationships with all the current children in the reserve.is this kind of a refreshing & These children -- a few of whom have become verbal, plus some of whom have yet to speak a term -- shine and share their gifts. It celebrates our kids on the spectrum because the unique incredible people they are. In an image, we see the Children -- their smiles, their enthusiasm, their curiosity -- and we see them as greater than a medical diagnosis. This reserve celebrates the gifts of these kids while also acknowledging the difficulties they and their own families experience. I really like the author's emphasis on shifting from just "accepting" autism to "admiring" it. This book is amazing. unique depiction of kids coping with autism, like our boy, who we are so content to have been among the many subjects of the effort. Any reader not used to autism could start to see the images and read the tales, and come to appreciate just how diverse an organization this lifelong challenge make a difference.. Amazing Beautiful photography and beautifully written book! This book will be great for families of kids with autism, for close friends of kids with autism, and specifically for schools or other people wanting to find out a bit more about it. Truly opens visitors eyes to children with autism and displays how every individual is different.and just how much alike we all are! The message of the book is quite positive while also offering some insight into the lives of those with autism. Would definitely recommend! Shining a light of admiration This book captures the moments of beauty and grace that can be overlooked when we choose to see the label and not the kid. It honors the children and their own families by recognizing that every is an individual worthy of admiration. Each has presents unique to the average person.Tera Girardin's photos catch each child's spark and challenge the viewer to look beyond preconceived notions of capability.By attributing an individual word to each young one and telling their individual tale, Tera pulls the reader in while letting the real nature of each child come out.A lovely book! Beautiful from beginning to end! beautiful and inspiring This book captures the wonder and joy of childhood, and provides inspiration to families who may be new to the autism world, and those who know it perfectly. This book is amazing. The author, who's also the photographer, was a pleasure to work with. Truly opens readers eyes to children with autism . come up with thus well!. Ms Girardin captures both their beautiful faces but also their uniqueness and inner beauty. I have niece that is autistic and Tera did a wonderful job of showing the many levels of this confusing issue. Many thanks Tera for displaying their accurate beauty and amazing uniqueness to the globe.. Her photography skills are also demonstrated in this publication And the youngsters true personalities turn out in her pictures. Highly recommend! I have not run into another reserve out there such as this one I have not come across another publication out there such as this one! Targets autism admiration through stunning photography and personal, touching narratives. Late review in Faces of Autism Faces of Autism It really is inspirational whether you possess a direct link with autism or not. It really showcases the internal beauty and shining souls of kids on the autism spectrum. Highly recommend!! This wonderful book is inspirational and enlightening This wonderful book is inspirational and enlightening. What I really like about this reserve is that sometimes whenever we see kids with autism, we initial see the motions or hear their speech that signifies something might be different about them, and that may be all we see.! thank you to Tera Girardin for recognizing how unique these kids are. I highly encourage this publication as a gift to families with Autism with its beautiful photography and touching stories of the special children. It's right now a treasured book in our home.
