Nice for home library We've several "Outdoor Lifestyle" books. The picture on-line will not show off just what a nice publication it really is. We hope to get them all. The books have steel parts on the corners that prevents the books from being damaged. You can find color pictures for nearly all the content articles. The books are basic, well written and the content is certainly interesting. There isn't a ton of fine detail for each topic, so you are sort of left on your own to figure out steps to make it work for your individual situation. Great place for ideas to connect with your own situation This is a really fun book and had a lot of interesting ideas for living "off the grid"... So much helpful information here! loved this book i believe occasionally living off grid would be great and bet many people would appreciate to do this to . Just for me I thought there must be more detail other than that pretty good Five Stars Quite interesting with many tips.. loved this book i believe occasionally living off grid would . If you are searching for an in depth "how-to" book, i quickly would look elsewhere but it is filled with great facts and will be a great starting point.. Great reading... reading it yet but up to now it's proven very useful. We haven't finished reading it yet but up to now it's proven very useful. Great book for children and adults alike Great book for children and adults alike. The illustrations add a lot more to understanding the ideas presented throughout the book. General, I've added a huge amount of survival skills to my wilderness repertoire. Its good but We was expecting something with more detail on . The publication itself has an amazing quality (paper, finishing, colour). Its good but We was expecting something with an increase of detail on how best to do certain issues.. I'm an architect and I need to say this reserve holds so much information that can be ideal for sustainable design. Informative Informative, just needlessly to say. Three Stars So So Very informative. Informative and helpful, whether you're just looking for some general ideas, or preparing for a doomsday event.
