There comes a period when couples opt to create and raise tiny helpless humans, hoping they one day become non-tiny and less helpless. Join the writer and his wife as they navigate those ten months, from the always romantic conception, to her water breaking in probably the most unique way possible.), the initial years of parental cluelessness, the horrible twos, threenagers, and the few years that follow if they begin to find out about a world that's actually crazier than they're. That is one family's journey through ten months of pregnancy (isn't it said to be nine months? No it is not. It's mainly a breeze. A few of it is devastating.. Then view them attempt parenthood, from the seemingly simple regimen of dressing their children for school, to the complex connection with teaching them to make use of general public bathrooms. Pre and postnatal complications; battles making use of their own mental wellness; and those rapidly developing and irrational miniature versions of themselves.. A lot of it is overwhelming. Everything challenges them to maintain their sense of humor. And when they attempted to go on an airplane as a family... that was a sh*tshow.
