The guidelines are vague and assume that you will be already pretty good at application. Pages 4-22 are basics about base, highlighting, brows and lashes. Nothing too in depth for folks acquainted with makeup but a good overview. Pages 24-28 are helpful color charts that show eyeshadow colors that will enhance/compliment the eyes. Pages 30-86 are all the quick looks, primarily focusing on eyeshadow program. Simplistic but Useful This is a pretty good book on simplistic aka "quick" looks. Some looks have become minimalistic but cover a wide range of designs from "rocker chick" type to professional and mature. This is a small paperback which will be easy to keep useful. It emphasizes colors a lot more than technique. Simply note that this book isn't huge format like her additional books. One thing I really like about Rae's books are that her images are barely, if at all, altered by photoshop. quick looks This is a basic makeup book. It gives you a very realistic expectation of everything you can achieve with make-up and it's a refreshing change from other make-up books out that I have reviewed.
