Tutorials feature topics like how to put on matt lipstick, gloss, along with trends like ombre, nude, contouring lips, and more. Natasha starts with lip treatment - exfoliating and prepping - and the fundamentals of applying lipstick. In Lips, make-up artist Natasha Devedlaka shows you how a little bit of lipstick can build your confidence, increase your mood, and completely change your lifestyle. Nothing makes a girl pop like a shiny burst of color! And it takes just minutes to apply. And with Kylie Jenner's lip kits nearly breaking the internet, it seems women of all ages are in love with their lips! She teaches readers how to select the best red because of their skin tone, make lips look thinner or plumper, select lipstick that lasts all day long, plus much more. Around two-thirds of women count lipstick among their essential luxuries, one in three saying they won't go without. This is a great, stylish book for anybody who loves lipstick.
