Guidance to carers includes here is how to identify warning signs of misuse, and recognise tell-tale behaviour changes in their child. Aimed at ages 5-12, these learning gadgets have been particularly designed to meet a range of comprehension and developmental abilities, with instructions for parents to adapt them to meet the specific needs of the youngster. Challenging topics are sensitively and straightforwardly addressed through step-by-step suggestions for parents and learning actions for children. The developmental challenges of children with special needs means they are generally more at risk of physical or psychological exploitation. Intervention activities help kids find out which adults to trust and how exactly to remain safe, while reducing worries, shame or stigma encircling abuse. This publication provides invaluable tools to greatly help parents, carers and teachers defend vulnerable children. This important guidebook empowers adults to fulfil their responsibility to protect and support children, and to provide a protected climate where every child can reach their highest potential clear of coercion or abuse.
