Evidence-based, the resource guides instructors step-by-stage through using ABA to teach over 140 advanced skills. The first comprehensive ABA program designed specifically for individuals on the autism spectrum aged approximately 7 years up to young adulthood, this complete step-by-step resource contains everything needed to teach advanced skills such as organizational skills, advanced self-care skills, academic and vocational skills and advanced skills for daily living. This is an unparalleled resource for professionals dealing with children and young people with ASDs who are searching for a robust and ready-to-implement ABA curriculum. Accompanying on-line downloadable content contains the teaching materials had a need to implement the program, including over 1000 color picture cards and worksheets, printable copies of the curriculum programs, data forms and checklists. The author also provides guidance on creating an effective ABA teaching environment, in addition to a wealth of practical teaching approaches for ensuring therapy success. The program can be individualized to meet up the needs and interests of the average person, and instructions are given on how to do that. It will end up being a valuable device for behaviour analysts, teachers, psychologists, occupational therapists, and students in these fields, as well as to parents dealing with professionals to implement an ABA program.
