Lovable Liam: Affirmations for a Perfectly Imperfect Child

[continue reading](#)

Love can last forever! When folks are cross with Liam, they still like him. Being cross is only going to last a minute. Liam is lovable even though he whines and won't eat his dinner. All kids require discipline and boundaries. They need to be trained manners, traditions, morality and social conduct. It reminds parents to let their child know they are wonderful and precious, deeply valued by friends and family, even when folks are cross with them. Vibrant, colourful and lively, this book's positive text messages and advice are perfect for young children attempting to understand how relationships work. With all these continuous lessons and corrections, kids can often be left feeling overly criticised or unloved. Lovable Liam takes a instant to honour a child for who he is.

The pictures in the book are pretty simple stick figures with an occasional shading in with ... It was a breath of oxygen to find that Liam in the reserve is not an ideal child, and may also be whiney or doesn't wish to eat his vegetables. When he provided him the name Liam I didn't understand anyone apart from Liam Neeson with the same name, but now it looks quite popular! My child was thrilled to get a book that discussed a little boy with the same name as him, and he was very thinking about seeing that there are other books in the Liam series. I highly recommend this book for anyone with just a little boy with the name of Liam! I bought this reserve for my son, Liam, who's 6 years old and the 4th boy of the family. My son could see that while he is also not ideal and does whine (a whole lot) about certain issues, that he's still particular and an important area of the family. Even when he gets in trouble or parents are mad at him. The photos in the reserve are pretty simple stick numbers with an intermittent shading in with shaded pencils, but they're whimsical and cute!! This would be a great series even if our child wasn't named Liam. My kids love this book. Wonderful I have previously bought "Liam runs poo in the toilet" and bought the kindle edition of the book for my 3 year old son. Very happy! My child offers attachment disorder, we r working hard to train him to realize he is lovable and adored by his family. I am hoping that a few of the good traits that Liam in the reserve has will rub off on my Liam. Truthfully, I don't get the hype. great book! the book came as pictured. i wasn't quite sure what it might be about besides the name. but i figured it might be an excellent gift for my friends baby shower who is naming her child liam, it could be a gift nobody else would give her (roughly i hoped-and nobody else did fortunately). the book was extremely adorable and about how lovable her boy liam is and just how much they like him. it is a quick examine, but great to sit back and browse to a child with! that is a one of a kind gift and i think it was an excellent purchase and came in reasonable period and packaged well i certainly recommend it if you are searching for a different gift for somebody with this name or just a book to learn to your child to show how much you like them, its very sweet! Great gift for parents I bought this because Liam is our son's name, nonetheless it truly is an excellent book and series. Also My sons name is definitely Liam, which is why We bough the book. He really seems to respond to this publication and lights up whenever we sit down to read it together. He sits through it nonetheless it isn't his preferred. Also, it had been much smaller than I got imagined. I wouldn't purchase it again easily could go back. I have a 9 year outdated boy and a 4 year old girl and they ask me to read it daily. I believe the author does an excellent job of just explaining what to very small children. There is a great deal in this book about sharing, becoming kind and polite (everything we're fighting! I imagine I'll be buying all the other ones as well!) but I specifically like its message that also if mummy is normally cross, she still loves you. Five Stars good He sits through it nonetheless it isn't his favorite. Very Cute. It's very sweet and loving. Super lovely book, fast shipping! Our small Liam loves this series! As parents of just a little Liam, we love this series. Ideal to introduce new encounters to our son. Lovable book. :) My 6 yr old son LOVED IT. I plan to get the rest of them and it's just bonus that it is like we're really reading about him as well. My 6 year previous son LOVED IT.
