Found the publication to be very useful and to help me look at stuff from a different perspective. His words are simple but effective, and I've turned out to be a better person due to his books. I hardly ever wrote an assessment before, but Personally i think like, this time I have the responsibility to share his wisdom to my friend like you. I assure you will love this book and discover the authentic self while reading it. Good luck, my friend! DON MIGUEL RUIZ IS MY HERO After all, where do I begin. I'll just focus on this book changed my entire life. Literally. I was given this book about 5 years ago at the same time where I was looking for certain answers therefore i could start to seem sensible of my life. THEREFORE I was available to receive this publication and everything it experienced to say (very important btw). I also browse the 4 agreements by this author when I was going right through a particularly difficult time in my life. both books go hand in hand. I don't understand if it'll perform the same for you personally but I foundation my very existence now from the lessons in this publication. (Then I begun to read his various other books, The Four Agreements and The Mastery of Like. I'm sure The Tone of voice of Knowledge will also be referred to often after I've completed reading it. ABSOLUTELY A Reserve FOR EVERYONE. A book about TRUTH and LIE, a MUST examine for a wisdom person as if you! Maybe we'll all understand one another a great deal better and begin to take control of our own lives. I recommend scanning this book FIRST, then browse the Four Agreements; Literally probably the most life-changing publication I've ever browse. Enlightening I loved how this publication is easy to understand due to how the writer relates his tales to everyday life. He plant life the seed of like and appreciation for the world at large - no matter how gloom or dark it may look at times. Insightful read This work was spectacular. The only caveat that helps prevent me from offering this a full 5 stars is I'd have liked to find more information on the Toltec traditions particularly as opposed to the comparisons of various other belief systems. I understand the usage to create a mutual surface for understanding, but since the Toltec is certainly in the minority of beliefs, I would have liked more info on the lore, at least. Do you wish to time travel? Truly life changing. Great book! Many thanks for writing this. I wish more people would live with the message of spreading love, truth and forgiveness. a must have love this book. Filled with love and truth. The webpages did arrive undone from the ... Reading spiritual enlightenment books frees my soul. The web pages did come undone from the binding following the first day of reading it, so it is weird to hold. Life changing book!
