The existing schedule of recommended vaccines is so crowded that doctors give babies several shots throughout a single office visit -- up to eight vaccines all at one time. Parents -- and doctors -- often ignore that vaccines are medicines. Mayer Eisenstein provides practiced medicine, delivered infants, and provided family members with preventive healthcare solutions for over 35 years. In this book you will learn. Dr. How often do we, as adults, take that many drugs simultaneously? * Precautions parents may take to safeguard their children. * Unwanted effects of each vaccine, with a summary of significant research. Eisenstein's help, it is now possible to make educated vaccine decisions. Would we become more amazed if we do or didn't have an adverse response?.. * The prevalence and seriousness of every disease, including who is most at an increased risk. * How each vaccine is made, with a complete set of elements. With Dr. This honest lead to childhood pictures was written specifically for concerned parents. Includes Essential Information on Every Childhood Vaccine!
