5-Stars, however, not for what I purchased it for.. This series is usually exceptional. Cons: Defiantly “Pocket-size” and printed in 8 pt. font, which makes it very hard to read for a man that wears eyeglasses for up-close reading. Great disaster pocket guide for Preppers Great general disaster pocket guide Nice Good all around Five Stars handy tool to have throughout the house Good reference Superb pocket reference for the home. Lists tons of info on Personal Emergency Details... I was searching for a First-Help manual, to set up my first-aid kit;, list of family members to get hold of, pets, Family Medical History, Planning for an emergency, etc... like your doctors telephone No. that is similar to a FEMA guide-manual for planning of the event. I still give it a 5-Star ranking for what this pocket-size guide is intended for, not really what I had thought it had been. I've been piecing together a home emergency kit and was attempting to have a 'perform this guide' to go with it. Generally, the topics in the Pocket Information are typical from what happens in House Emergencies.Pros: A great deal of information I hadn't even thought about which is great. Good Basic Information Building a Bug Out Bag / Earthquake kit to get a friend... an emergency happens and your brain goes blank! Well. informative an easy task to navigate Handy, informative an easy task to navigate.. ideally this guide will come in handy - though I would rather not need it. The guide is organized well with easy to find tabs with instructions Just what I was looking for - a concise 'do this' book for basic real estate emergencies. The guide is laid out well with no problem finding tabs with guidelines. I've browse it front to back and there is plenty of good information in there for many of the very most common home emergencies. CPR for infants to adults is an excellent reminder and implies that it has the latest methods for dealing with situations.. I can't imagine how hard this would be to try and read in a dark scenario with only a torch to see it by. Four Stars for my library.A noticable difference will be links to online info Five Stars Great . You know the problem. I have one of these in mine therefore i bought this for them. Good basic information.Well organized and information.
