My brain works in a different way." He offers high self-esteem and does not have a problem making friends, but there exists a longing I discover. He definitely really wants to find out about others with Autism. You can find books for children about having Autism, however they are illustrated. My child cannot stop smiling while scanning this. "Autistic Not Weird" is Facebook web page I stumbled upon when one of the posts went viral about the man behind Pokemon getting Autistic. I immediately had showing my Pokemon-loving child who was extremely excited. From then on, I've followed his page. I am one of over 58K and counting who like his page. My daughter and I enjoy reading it often! How can a child relate with a drawing of a kid? He can relate with each child in the book as they talk about their love for Legos, Minecraft, Canines, etc. Something these kids need. Now, he doesn't experience as alone. A lovely family read, the location it has on our family publication shelf makes us smile. Inspirational and Enlightening Go through! He absolutely loves that these kids are simply like him! It generates a confident dynamic for children who've been recently diagnosed, children who've just discovered their Autism and children who have not found an identical peer to navigate this strange world with.. Awesome I love this reserve, the message it puts across is indeed important, and the effect I have seen it have is so tremendous, I've given away my copies and replaced them.
