So That's What's Happening: An illustrated guide to your changing body

[continue reading](#)

Children are striking puberty younger than ever before, some as early as 8 years old. So That's What's Happening! provides accurate, fun & age appropriate information about the changes which lie ahead. Suitable for children of any age group, this book presents a fantastic intro to puberty for younger reader as well as the late starter. The publication covers the physical adjustments of puberty including why people change from child to mature, when & how the adjustments begin, hormones, changes to body sizes and shapes, growing locks, changing voices, hygiene, pimples, the male and feminine reproductive systems and how they work, internal body adjustments, eggs, sperm and how they meet up with, intervals, erections, wet dreams, keeping healthy, moods, feelings, choices and even getting along with parents. (Gina Dawson) is usually a warm, all-inclusive reserve that children will like and adults can relax about. Through the entire book may be the message that everyone is exclusive – and that's okay! Therefore That's What's Happening!
