) They're very accurate & No words concerning how beautiful these are. The "guidebook", however, is darn awful. It includes a few short sentences that have no talk about of what is actually going on in the card. The booklet may as well go along with a box of blank cards with nothing but a title in it. I am an experienced card reader and would still get them for the cards and just do my own interpretations based on the images. The pictures themselves are rich with symbolism. When you can extract meaning from imagery and symbolism well, then yes, get these cards and simply throw out the booklet, because reading it at all severely devalues the message. These are quite possibly the most amazing cards I have ever seen. Too poor they cannot write an excellent companion book by somebody that actually viewed the cards initial, because with it the potential in these will be amazing! The cards themselves are amazing. Complete Group of 50 beautiful cards, packed with meaning as is Ms Wall's works, in like new condition. EASILY could, I'd put these pics all over my house and room.. I can't even. I'm very, happy with my purchase. When I noticed the 1st card, I quite actually gasped, & A genuine disappointment and a miscommunication between artist and author. The paintings are magical and much could be gotten just from them. To anyone who's looking for insight, a character lover and loves eyesight and searching beyond, these cards are for you, your spirit and your journey to development and betterment. I just can't even begin to explain just how gorgeous these cards are. The energy of this deck is indeed beautiful, helpful, curing, and amazing. found these. Dispose of the booklet, but buy the cards The artwork because of this deck is completely amazing. have given me plenty of encouragement in this era of great transformation in my life. The only real downside to these cards is they are bigger than playing cards. I can just hardly shuffle this deck easily stretch my hand to do it. If indeed they produced these in a regular-sized deck, I'd snap that up aswell. These cards are gorgeous, have such an air of relaxed about them, and had been delivered very quickly. These cards are gorgeous, have this air of calm on the subject of them I have been waiting a few months right now for these to be released in the U.S. These cards are perfection. The pictures are spectacular, and the text messages are equally beautiful. So happy I followed my first mind Before purchasing these cards. Better than I had hoped. It's my absolute favorite deck!! Nature's Whispers is a lovely, exquisite deck to utilize. Simple however effective descriptions on the cards. I really like these cards. What drew me to this deck was the fine detail and activity within each cards. I also choose cards that display a reference for the real meaning of the card, which makes my readings much easier. The extent of shades within each cards are still left for interpretation themselves (in case you are into reading colors). Many folks are drawn to nature and may relate on a personal level. this deck is quite enticing to utilize as it helps one to embrace character and every one of the nurturing it could do for all of us. I loved the purpose of the cards, that was stated as a way of re-aligning ourselves with the messages we receive from character. Just a little bigger than common cards but nonetheless perfect to utilize. With seeing the evaluations along with the artwork on the cards, they not merely spoke to me but with where I am in my own journey nature is becoming apart of me for it enables you to more aware. So with wanting more consciousness, I took a possibility and OMG! Definitely love these cards! My 1st reading as a newbie made me understand clearly from reading, pictures and even indicating. and the artwork is usually lively and complex which aids in personal meanings and interpretations and can help you tap into unseen healing and guidance. Now, I'd like the love cards. These are the initial tarot cards I've possessed (I'm learning tarot), & A purchase that's worth it. Beautiful artwork!!! I love them. They're like artwork for the palms of the hands! Beautifully designed. I relied on the evaluations to guide me into what to purchase, let alone for the first time in attempting to embrace tarot cards. It's cards

meanings are basic and appear on the actual cards; Just enough to spell it out the card without removing from the wonder of it. Beautiful and exquisite deck that flows together with your energies! Love it! My favorite deck This is my absolute favorite deck ever.. (I had looked at traditional cards decks but none of them spoke to me, therefore i broadened my search & I tend to gravitate toward these more than any various other deck I've. You will literally experience breathless as you look at these pictures. I look forward to more by these performers. I hope they do more shortly! Definitely pleased with my purchase! These cards. I shall treasure and enjoy. Box shows unimportant indicators of ware. I shall treasure these cards for years. Amazing art My clients absolutely love this deck and so do I, cherished it so much I've also recently purchased "Whispers of love" great illustrations it is possible to read one cards for an hour with all the amazing artwork and colors. The booklet is pretty much useless-bland, generic sentences that do not information, uplift or enlighten. I held gasping as I experienced each card. Take A Deeper Consider the Artwork Love the artwork! Absolutely gorgeous Unquestionably gorgeous cards that resonate with me. A Missed Opportunity The artwork is beautiful but bears little to no relationship to the booklet explaining each card. Five Stars Beautiful cards Beautiful designs on every and have really linked to them Much bigger cards than I expected. Beautiful designs on each and also have really linked to them. Five Stars Beautiful cards and messages..
