Whispers of Lord Ganesha: Oracle Cards

[continue reading](#)

Ganesha's energy has the power to apparent obstacles, bestow wisdom and promote prosperity & success in every ventures. Lord Ganesha, the renowned elephant-headed god, is one of the most revered and worshipped deities in the Hindu pantheon. Work with this original deck to invoke the blessings and safety of Lord Ganesha, patron of the arts and sciences and keeper of great knowledge. Call on him whenever you feel yourself looking for inspiration, guidance, and a clear route through the obstacles and challenges that lie ahead.

A Beautiful Deck Honoring Ganesha This deck is completely gorgeous. They're consistently helpful, and the text messages on the cards constantly seem sensible with the questions I have asked. The thickness of the cards isn't too thick but not too thin that it's flimsy. Overall this deck will end up being exciting for years to arrive and I cannot wait around to begin learning the cards and Ganesha better. I love them! In addition they exude a peacefulness I've hardly ever really experienced from additional decks. The reserve is on small side but the text messages of the cards is definitely precise and to the idea. The book also contains a simple background of Ganesha in addition to a few spreads, one of that is Ganesh's horseshoe, which I am not sure exactly how a horseshoe pertains to Ganesha but I am still eager to test this out. The cards are on the larger side so it does make it a bit difficult to shuffle, but not too bad if you are utilized to the larger cards.. Open opening this deck, you can experience the energy of Ganesha just overwhelm you with peace and serenity, which is respectively what Ganesha is all about. I could not have written an improved review.. Please start to see the photos attached for further analysis. Exquisite and powerful I have plenty of oracle decks, but this is actually the best one yet. Beautiful, helpful cards I really do enjoy using these cards. This is among my favorite decks for certain. I use the card delight for my bedside table. It makes my heart happy!! These cards are accurate with my day to day emotions and thoughts. The cards are larger than the traditional tarot cards and the artwork on them by Ekaterina Golovanova is absolutely breathtaking. That and removing obstacles needless to say. I recommend it! I am so deeply in love with this deck I am so in love with this deck. It has 50 cards and an excellent size guide book. I don't work with him nor deities from his pathon so I don't completely understand all the meanings just by image alone but I am needs to understand the even more I use the deck. Gorgeous artwork and great writing! I love this deck and booklet. The sheer beauty of it is totally breathtaking, and the cards function incredibly well. My only complaint is that whenever shuffling the deck, the cards have a tendency to stick together. Beautiful Deck I purchased these after listening to Steven Binko's Amazon review. This is a deck you will not regret buying. The booklet is also well written and very helpful in conveying the meanings behind the cards. You should listen to the review, too, if you are considering this deck. I use the card delight for my . These cards are beautiful. Angela Hartfield did an excellent job. Unquestionably smashing deck! I really like them! The art is completely magical. The messages are not too long and incredibly understandable. They also say in the publication that deck is only for you and should be attuned for you. So, you don't give readings to others onto it. There is something about any of it I feel real connection to Ganesha. He is exactly how I felt him when I called on him ? Powerful, relaxed, caring. They understand how to provide me the exact pep talk I need in order to ease and comfort me. The artwork bleeds to the edges of the cardstock which is a glossy finish. It is a pleasure to use them because of these reasons, and in addition because the artwork is indeed beautiful. I own many decks of oracle cards, but I seem to grab this deck most often.
