Perfect for elderly readers with storage issues My late mom adored this and Lydia Burdick's additional books for memory-challenged adults. She go through them regularly with me and with additional caregivers and was constantly delighted; He seemed to enjoy it, having it go through to him and pointing at pictures that peeked his curiosity. I've recommended them to many other caregivers. I want there were more of them! They loved them so much that my SiL asked my MiL if she'd like her to leave the books with the counselor for everybody to read. How big is the lettering is good for those with eyesight complications. Tinky Weisblat, author of Pulling Taffy: A Yr with Dementia and Additional Adventures Great for Dementia I used to read these to my mom. They are my books! She liked to read though despite it all!! So please read to your beloved!! It is wonderful to hear their voice because they read, when you have someone who does not really talk just as much as they used to because of the condition. Five Stars Great book to learn with your cherished one when they are having a difficult period having a conversation.. Good publication! When I read one to my mom and showed her and another woman the illustrations their faces lit up!. She can read these and in addition likes to end up being read to because it can be comforting and has photos of elderly adults. At first I thought it appeared too childlike, but my mom really connected. Reading to get seniors in a nursing home Ideal for reading to a senior with memory problems. She suffered from Dementia. I sent 'Wishing on a Star' and 'Sunshine On My Face' to my sister-in-law to learn to my mother-in-laws. My just complaint is that what "for memory-challenged adults" shouldn't appear on the book--or should be about a detachable sticker. The illustrations are beautiful. These are my books." Now that I understand they enjoy the books, I'll send her the brand new Year's book. Great book for older people person with dementia. I am so grateful for books with large pretty pictures and large simple words for adults with memory complications. My Mom is 95 and provides dementia and diabetes.fond memories. Wonderful!! This is perfect for my mother and for others in the memory care facility where she is residing now!. My MiL said, "No, consider them home and bring them back again to me.. Useful for caregivers Even though my husband can no longer focus due to his visual difficulties, these books provide plenty of conversation opportunities and he continues to take pleasure from hearing someone read to him. I was so pleased to donate this book and the various other two by Lydia Burdick created specifically for memory-challenged adults. Many thanks for making these obtainable! I'm finding them surprisingly enjoyable! I recommend this reserve. The drawings are wonderful and pleasing. My mother often read those terms and asked about them, and realizing that she was memory space challenged had not been helpful to her. I have had a few volunteers use this book with their patients now and they were able to connect a little better.. Great for my dad! He enjoys it! Perfect book for alzheimer patient! My grandfather was in the late stages of Alzheimer, thus he wasn't able to do much of anything. Found this book and thought I'd test it out for. Just what a perfect book! they softly stimulated her conversational and observational abilities. Hospice Volunteer Tool I actually am a hospice volunteer coordinator and am generally looking at ways volunteers may connect to their patients. Delightful publication. Many thanks. This really helped us connect a number of days. Beautiful book This book sensitively provides the reader and patient to check out an age appropriate storie and generates plenty of topics to talk about with the patient about their life. Lots of smiles!
