Then add those natural yet practical Crossover colors to expand your wardrobe without breaking your budget. What's the secret ingredient that can instantly enhance the way you look and feel? Here Lee will expose you to her primary, easy-to-follow "Color Clock" program-- the quick way to find and utilize the colors that reflect your personal style and transform how you look. She will show you how exactly to pull your wardrobe using your personal shades - which are sexy, which are powerful for interviews and such; It's simple--discover your individual colors! In line with the shades of your eyes, locks and skin as well as your psyche--discover your personal selection of beautiful colours in Leatrice's "colortimes": Sunrise with the sparkling jewel tones of dawn, Sunlight with the soft pastels and fruit tones of noon, or Sunset with the fiery hues that mellow into dusk. What is the best thing that can be done when you don't have a thing to wear? America's color guru Leatrice Eiseman will show you how in her fun and useful new book, *Even more Alive with Color!* which accessories will magnify your personal style; and which cosmetic and hair colors will make your skin glow and flatter your organic coloring.

Eiseman's method is just as limited as that of her principal target, Carole Jackson, the author of the original, "seasonal" color program, "Color Me Beautiful". That is, they're ... Nice tear out web pages for each of the colour palates. Leatrice Eiseman can be amazing! FUN BOOK This is an excellent book that will not box you, there is a variety of colors you can wear and Leatrice teaches you how to wear whatever color you want. Does have the right color charts, but way too much stuff to read! Come Alive. and many thanks for your projects with Pantone, I can't wait for a year of orange hitting everything fashionable! com) and find they grasp the concept easier when creating their wardrobes and personal space. The recommended color mixtures and photographs included have become effective-what I've generally expected in a publication dealing with such a visual topic but have rarely discovered. Many reviewers have mentioned the gorgeous photos in this book, and they are absolutely right; I've learned and practiced the style of colors by periods and it often created 'gray' areas remaining to interpretation. Her model makes such sense and will take the cue from character where all colours originate. I take advantage of this model today with customers (stylebymichele.. A book that's in my tote and that is shared with clients daily. Many thanks Ms Eiseman. Too much reading material I did not think this was as good as others posted. The photos may be outdated, the swatches unhelpful.. Excellent to have when you really want to see what ... This book has exact "pantone" color blocks. Great book! Five Stars Love this book! .. Obviously we look better using colors, but when you have a creative edge you can wear any color and still look good. I just want to know what color clothing I should be buying by color illustrations. I wanted fast and simple, show me photos and examples! Very nice to possess when you truly want to see what the color is Disappointed. The colour palettes are miniatures. Easy, Sensible and Attractive This book is a superb read and an excellent introduction to the idea of color palettes arranged by period. The book is easy to understand and the layout is very pleasing and attractive. We had the honor of conference Ms Eiseman at a stylist workshop earlier this fall. The only real reason I rate the book a "4" rather than a "5" is because some of the sections, the men's section for example, are too brief and really just touch on the concept outlined. A worthwhile investment for up-to-date information regarding color and preparing a pleasing wardrobe. Pretty Pictures, Ugly Colors As advertised, "More Alive With Color" makes it simple to get your, um, time of day. Needless to say it's easy: Eiseman's simple advice is, "If you are not a Sunrise or a Sunset, you're a Sunshine." This slap-dash, half-baked method makes sure it is possible to categorize yourself, as long as you don't mind wearing colours that look hideous on you. The color palettes are miniatures. Although some of us may look gorgeous in some warm plus some cool colors, that's not true for all those. When I wear the "fruit" shades (with the correspondingly toned makeup) that Eiseman claims will

look so great on me, people (usually men) question me if I'm feeling ill. Follow the suggestions in this book, and you may make some costly fashion blunders. What an amazing woman to talk about her understanding of how color really can create an enhanced image of someone's visual style. the publication itself is amazing. But, if you want more than pretty photos, look elsewhere. To get the best guidance on color, I'd recommend "Color Me Beautiful's Looking Your Best" by Mary Spillane and Christine Sherlock.. But as long as you possess the name of your extended season, you can do an Internet search, and discover places to get fabric swatches from the expanded CMB system.Keep "More Alive With Color" on the espresso table! . That's, they're so small, you are not sure if you're considering brown, deep red, or burgundy. Great book Very helpful. Four Stars liked it
