Chicken Soup for the Soul: Family Caregivers - book The need to start being a caregiver for a member of family who's ninety and does not want a caregiver is a rough new experience. The book discusses caring for family with special demands of any age, not only the elderly. It can be rewarding for both person receiving the care and attention as well as the caregiver. I've only read elements of the book, but what I have read has supplied me with wonderful examples of how this can work in households with home treatment or more care when the need presents itself. I came across it to be uplifting and supportive and I would recommend it to others. Five Stars It had been enjoyable and helpful to me while looking after my father! I acquired this and more! chicken soup for the soul FAMILY CAREGIVERS This is among the best books that I have ever read. In the few short weeks I've had my book, I have given others apart and suggested it to anyone who mentions their own struggles with daily caregiving of family members. Another Relevant Poultry Soup book I was my mother's caregiver while she was in hospice with congestive heart failure. This Chicken Soul book was especially touching. Written like other Chicken Soup for the Soul books, reading a few stories a day appears to remind me that I am not alone in my feelings and provides me the power to continue to take life one day at the same time! Someone walking an identical walk as me recommended this book. I could learn to appreciate and discover joy in the times I experienced with my mother. Some stories had me crying and some experienced me smiling. I really like the Chicken Soup books! I needed a book to read by caregivers for inspiration AND to validate emotions I was having. I struggled as my mother's caregiver. It had been demanding. Nonetheless it was my mom and I would do it again and again...! if only I could switch the outcome. Thanks, Linda Hayes It's a must browse! I am the only real caregiver for my Mom, who is living with a terminal condition, and this book inspires me. After 16 a few months of caregiving, I often get tired, and it is great to read about what others have gone through. I am so grateful for each and every author's story. My favorite chapter is 20, "Commitment Doesn't Include an Escape Parachute," p. 104 by Susan Yanguas. or some woman with alzheimers working people over with an electric cart and thinking her child was her sister." I hope to end up being that devoted one for my Mom. I highly recommend this publication to all caregivers and those who support us everyday. I've go through many books in the Poultry Soup for the Soul series and I hope that she finds comfort in this book knowing she is not by yourself in the struggles and rewards of caregiving. Depressing, I were only available in the humor chapter, I ind nothing funny about a man and girl sliding around in the spouse s urine nude till that they had to drag themselves outside to get right up.
