A must have for parents of kids with CVI I got this book and within 2 days of reading it Julia was rolling more than while trying to attain for something. Compiled by parents of a kid born with, and diagnosed with Cortical Visual Impairment. The monumental love and unending dedication it took to get answers, a diagnosis, and all things necessary to help them, their family members, their son on the trip with CVI. It's a lot more than CVI. It offers information in what a diagnosis of CVI means, their own and many other family's encounters, and specific features of CVI. This is a fantastic addition to the very little library of books parents can use when their kids have this type of visual impairment. Excellent resource for parents I bought this book after locating Littlebearses.org and hearing the authors speak at a vision conference. I am a mother or father of a kid newly diagnosed with Cortical Vision Impairment and also have found this book to be an excellent resource in lots of ways. It is well crafted and has many helpful resources. The best chapters give information about 1) specific factors a parent can do every day to help the youngster learn to see and 2) understanding how to navigate Early Intervention and Unique Education. It also provided other companies to look at for information and aids. Actually helped me with information My grandson has cvi and I actually had never heard about it, this reserve helped me deal with him not looking at me and gave me some ideas of how to help him. Five Stars Perfect book for all those initially and leaning stages with a kid with CVI. Another bright celebrity in the sky. To think that she has never done this due to her vision! WOW! Game me ideas! Great book Highly useful and accessible. Great for parents This is a fantastic book for parents of children with Cortical Visual Impairment. I particularly like the stories of the families. I would suggest this reserve to any special requirements parent. There are so many helpful tips in this publication, I would like to buy 10 of these to leave with doctors and therapists so that we can all be on the same page while working with our amazing children. Game me suggestions that seemed to function for others. I have borrowed it to nurses and therapists who care for my child and have experienced great response from their website as well. This book is an extremely useful tool for me every day and is quite easily read. I value the people who wrote this publication. Wonderful resource Very helpful reference for anyone learning about CVI, especially parents whose children receive a CVI diagnosis!
