"It's by no means too late to be who you may have been."~ George Eliot, 19th Century English novelist One of the largest hurdles people over 50 have to overcome is the mindset about their age....a valid excuse to give up on your dreams....a valid excuse for inaction."Yes, age group is the number of candles on a birthday cake, and a stark fact of what to come....a deal breaker... But getting older isn't. Here are 50 individuals who overcame the very same things you are facing at this time....a limit on success." But as we all know, getting older has specific obstacles such as dwindling health, limited income, and the end of long-time careers accompanied by "right now what in the heck carry out I do? There's a vintage cliché of "age group ain't nothin' but lots....a reason you can't start a business or any various other new venture. Let them show you the best way to outrageous achievement and happiness no matter your actual age or circumstances.

This book is a compilation of stories of 50 people who achieved success following the age of 50. Some of these people are famous and some of them are unknown, but most became larger successes after 50 or 60 than that they had been before. An excellent collection of well known people and what they accomplished in their later years. Extremely motivating Amazing stories of men and women who found achievement (or indeed more achievement) late in life. Interesting read, short and to the point. I have no excuses now, therefore i better get working! worth the browse!!!

"It's Never too Past due. I applaud his attempts to present these stories in a good collection. I also found it be extremely motivating and the tales are short also to the point. Filled with examples of men and women who found success once they had reached 50 years and whats a lot more unexpected is that several of them were well previous that age! It was worth enough time and money. Open oneself to new ideas!..! If they can do it I could do it. That is absolutely fantastic. At 66 years of age and lately having lost employment reading this book has provided me the insight to reinvent myself and continue steadily to live life instead of sitting on the porch watching the grass develop and the paint dry. Tank you Vic and I am reading more of your books in future.. I am pretty sure I've quoting this book going back couple of years, without knowing it...specifically for the 50+ age group. You are never too old to learn and begin something new.t A great collection of popular people and what they accomplished ... Simply the title is intriguing. This is inspiring for me as an almost 56-year aged who has attained some success, but not to almost the extent Personally i think I'm capable of. I do. It deserved 5 celebrities very interesting book.!.." supplies the incentive to go for it. Great Inspiration at it's best. Short venues that are readable and really show it is truly to never late and you are never too old to accomplish your dreams INSPIRING AND Worthy of THE INVESTMENT.. Obtain it and READ IT! ..!in both time and money.As the seniors now reach so-called pension, having done in many cases function that made their living but not probably 'their life', these stories of people who kept in the years ahead productively cannot help but be inspiring to all or any of us. Lifestyle doesn't end because we're approaching what culture deems as "retirement age". This was a very interesting book and getting over 50 myself, has just given me wish that it is to never late to get some of those things done on the bucket list. This book includes a powerful encouraging message that it's never too late . . I honestly believe that is a genuine statement for so multiple reasons. When my girl was in 7th quality her teacher told her it had been too late. Well obviously it had been not too late for whatever it was. In order teachers, mentors and the tone of voice within state this phrase as often as possible. Retire or Refire Being less than a month from 67, I was thinking about the successes of these late-life busybodies shown in this book. In fact, life may just begin at that point! Drives home age is just a amount! But I was also surprised at the Olympians and body

builders who have been within their 70s and 80s! I am a writer now, so am encouraged by the tales of prolific authors within their 60s, 70s, and even 80s. Extremely motivating for anyone that might be tempted to give up due to advance age. Great read! Retirement will be the third stage of my rocket ship called Life. If you are over 50 like me and need a little boost or motivation, read this. Wonderful assortment of inspirational stories! 2 Thumbs up. Inspiring and Interesting Vic Johnson offers quick 2-page stories of people who've achieved their dreams or found great achievement, after the age of 50. The writer didn't write anything original right here but the tales he gathered are extremely encouraging and inspirational. I purchased this book for my 63 calendar year old husband who finds it challenging to think about new ways to end up being "useful and relevant" as of this age of near retirement. You may be suprised who the success tales are about I really liked it. If nothing at all else it will plant the seed and get you convinced that you CAN achieve success by following something you are passionate about. Excellent Title! I simply ordered the book and can't wait to do a review. I may have forgotten see this name... mini-case studies- not a lot of depth and would've enjoyed more business instances but I enjoyed it and found ... Inspiring mini-case studies- not a lot of depth and would've loved more business cases but I liked it and found it inspiring Happy Nice book again Vic kinda in a funk now this might be what i have to break on through. Peace
