skip this one you can just about sum this book up by saying "buy cheap gear from yard sales, thrift shops, and flea markets". There you go right now you dont need the book lol. Very Informative Book Poor Man's Wilderness Survival Kit by James Ballou is a very informative book. that one is no different. We assumed this reserve focuses more on making and improvising tools and equipment rather than just being a thrifty shopper. sure he has some pictures of several crude homemade products but anyone with any kind of skills and fundamental tools could develop things equally as good or better. confident that will be the biggest expense connected with it. 3+ stars for content... Very well thought out and useful information! Effectively written and illustrated, and very clear..and it had been only about \$7! Purchase it!..Been thinking about survival all my life. Great small book for somebody who needs to assemble a survival kit in a rush using dollar store or thrift shop components or who must use items scavaged from roadsides.. If you're into wilderness survival like me this book may prove invaluable for anyone who wants to come up with a relatively cheap survival kit because of lack of funds. Nice writing design makes actually reminders of old suggestions enjoyable. Awesome A+A+A+..I've bought many items over the years for camping and wilderness survival, but bought this from the perspective that, within an emergency circumstance when may very well not have all your gear accessible, this may provide suggestions for improvising from what is at hand.. Never knew how or where to start, till I bought this book. Excellently created and pics r most useful. One of my favorite books Filled with many cheep camping gear concepts I keep it close to browse One of my favorite books Four Stars It is always good to get a less expensive way to do something. If I had any friends interested in survival, I'd give each of them a copy! Many paladin press books have catchy titles and covers but most of their books aren't worth the amount of money. It hasn't taught me anything I didn't already know, but it has provided me fodder for new ideas. I would recommend it for anybody who doesn't have lots of money to invest on fancy survival equipment. originality, 5 stars for reminding you what's important A lot of good ideas, the majority of which aren't not used to me, but it's a nice reminder that just as much as I enjoy collecting gear, it's better for the brain to scrounge or help to make your own. Lives up to its title! Working my method through this, but so far everything I've seen is normally "as promised"! It will likely be cinch to construct a wilderness survival package for little if any money! So worth the money I spent to obtain the book... This book is full of valuable information and instruction.. Five Stars Great item Always nice to get a plan b If society ever fails and you want to know how to switch trash into treasure, read this reserve. Great small book for somebody who needs to assemble a . I'm pleased to say that this book is a valuable resource for this, and also extremely useful for folks who just can't afford to pay out a whole lot from REI or wherever. My recommendation would be to get the reserve, read the book, use the book! Better than expected Good book better than I anticipated. A book for most people. Got myself all organised.. Always nice to get a plan b. Fantastic! Great product, great vendor! Highly recommended!
