Scholars believe, and we concur, that work is essential enough to become preserved, reproduced, and made generally open to the public. –This text identifies an alternate Paperback edition. Therefore, you will see the original copyright references, library stamps (because so many of these functions have been housed in our most important libraries around the world), and additional notations in the work. This work is in the general public domain in the usa of America, and perhaps other nations. Within the United States, you may freely copy and distribute this function, as no entity (specific or corporate) includes a copyright on your body of the task. As a reproduction of a historical artifact, this function might contain missing or blurred webpages, poor images, errant marks, etc. This work has been selected by scholars as being culturally important, and is section of the knowledge base of civilization as we know it. We enjoy your support of the preservation procedure, and thank you for being a significant part of keeping this knowledge alive and relevant. This function was reproduced from the initial artifact, and continues to be as true to the original work as possible.
