This is SUCH an important book! Four Stars I purchased it for my grandchild great details. I'm a veterinarian, and I am doing pet nutrition analysis for decades. "Timebomb" will surely become your preferred health reference publication. I am so thankful that he decided to use his experience to help others steer clear of the same difficult route, and heal others in a similarly awful place. Joe Horn's story is horrifying; I believe there's truth here. Which is some scary stuff! And it's really just not right generally! This book brings reams of information together in one place, in a readable, user-friendly format. just what a hard way to learn! In fact, I'm going to get the Kindle version too, so I can have it on my telephone and refer to it when I'm in the grocery store! So interesting. This book will convince you to earnestly change your diet plan Good and useful. Makes me think seriously about changing my diet. It has produced me look at our food supply in a completely different light. Wow what a discovery I read this book with hope I could find my response I desperately needed. There is an excessive amount of being held back from us! Informative The things in this book will be the things that people should become aware of! Despite the fact that I've done so very much research, there have been things in this reserve that really surprised me--and influenced me to change my very own diet (that i thought was very good) in significant ways. Very informative Excellent and informative. Filled with facts. Author did brilliant job writing this, and he offers lived the side ramifications of what our processed meals can do and is doing to your bodies. All throughout the book I found myself questioning why I under no circumstances knew the items taught in this book. Thank You Joe for informing your story. I possibly could identify. Five Stars Thank you. Just as described Interesting information This book was an excellent read. Please, consider Joe's advice and learn what is really heading on in the food industry, how exactly to protect yourself as well as your family, and how to be your healthy, vibrant greatest. It has encouraged investigating additional into this processed food problem. What I came across *first* was that pet food is manufactured out of leftovers and waste products of the human food industry. Five Stars Its a must read Great wealth of information Great book with holistic information that personally i think is accurate and applicable Three Stars Very interesting information. Great read Great book! it had been a straightforward read but had tons of information. Every adult in America--especially parents--needs to learn this book! Very informative, great info. Three Stars returned
