MTHFR Gene Therapy Demystified: Crack Your Genetic Code to Better Health

[continue reading](#)

Dr. You've identified the reason for your health issues, but remain unsure how to proceed next? Have you been struggling with health issues for years and recently identified as having MTHFR? Terranella provides treated hundreds of MTHFR cases through the years and today has released a thorough guide to help you navigate MTHFR treatment. "Dr. Rather than a one size suits all protocol, Dr. In order to understand MTHFR, he is "THE" guy to hear! Go beyond just learning about MTHFR gene mutation and actually address your person treatment options. Terranella is the greatest doctor I've ever seen! Terranella gives you the "why" behind the how to proceed, what things to expect, and how to proceed when things usually do not go as planned. I've an even of understanding I hardly ever thought possible, and much better than that, I have real results from treatment " Mike Hardenbrook, Patient

Waste of money That is a leaflet, not a book, and therefore it is wildly overpriced. But this leaflet lacked any real credibility and not a lot of info. I in fact went online to find out if Robin Terranella was a genuine person or if the whole lot was only a scam. He's real, so that was a plus. There's no author details and it's ridiculously short for such a topic. We was hoping for a bit more. You don't get dropped reading it because it is organized perfectly. Some New Info - I was longing for even more. I am stunned that it was written by a Dr. There was a little fresh information regarding how other snps influence treatment but there was a lot of try out this or that watching for these unwanted effects. I can find that online. There was a lot of chat to a medical professional but most I understand don't understand this however. I, as the individual, am educating them. Don't waste materials your money Useless "book". But I like to have more information. He's clear about each subject and explains each point properly and well. But Dr. Terranella did an excellent job. I thought it could be difficult to comprehend, mostly because of the subject matter of chemistry. Spend your money on Dirty Genes by Ben Lynch instead. It follows a obvious path to the end. I do recommend it. Homozygous C677t lucky me - I'm explaining to my doctors the medical implications of that on my many autoimmune issues. Eat spinach and prevent folic acid. That's it. Good He give a clear picture of the topic. We was surprised at just how much I enjoyed this book I was surprised at how much We enjoyed this book. And include even more of anathor gene that's related. Five Stars Easy read
