

Dr. Laila Risgallah Wahba and
What Happens After #MeToo: Tackling the Iceberg

Make your dreams for basic safety and health become a reality for your children. I wondered who they might turn out to be. This can be one of these. The future isn't ours to find. I remember my mother singing this song often to me as a child. What ambitions do you have for your children? What dreams? Ambitions for wellness, safety, prosperity and an excellent life. When I was pregnant, I often wondered what my kids would look like. We reside in a distressing period. Headlines remind us constantly of things we don't wish to discover: victims who have been exploited and abused by more powerful or manipulative people, offenders who have gotten away making use of their abuses for too many years, and a culture that has turned a blind eye for some of its most unlnerable associates. Arm yourself with the knowledge to get ready hearts, expose lies, and heal wounds. For those who have children, work with them, or know victims of abuse of any age, read this reserve. We need to know what the issues are to be able to fix them, so when painful as they can be, knowing them may be the first stage toward a remedy. This book is an important section of the solution. It not only identifies the problem of misuse; It acknowledges the importance of the #MeToo motion while assisting parents and children reduce the amount of voices which will ever need to say "me as well. it also equips parents and others who work with children and youth to guard against abuse, recognize its signs, and prepare teenagers to reside in a threatening globe." It brings things that were secret into the light. But seeing these things is preferable to not seeing them, and coping with them is better than leaving them alone. These are signs of serious social and psychological complications, and we want we didn't suffer from them. Yes, these times are distressing, but you can find solutions. I am reminded of the tune: Que sera sera whatever will be will become. It educates us about things we don't need to see in order that maybe we are able to see them much less often.
