## **Native Fashion Now: North American Indian Style**

[continue reading](#)

Mainstream American fashion has always been influenced by Native American style, and that's because Native artists have usually created exquisite clothing, jewelry, and add-ons of their very own. Celebrating Native American design as a significant force in the world of contemporary trend, this book features beautiful, innovative, and surprising appears from Native American performers. But it's only recently that Native designers themselves have got started to break into the style market in a big way. With examples that range from haute couture to informal streetwear, from evening gowns to beaded boot styles, and from skateboards to umbrellas, Native Fashion Right now demonstrates the extraordinary range and talent of designers who honor important cultural traditions while creating breathtaking of-the-moment fashion. Divided into sections based on the designers' personal designs, the book showcases the work of dozens of fashion designers, from Virgil Ortiz to Patricia Michaels to Jamie Okuma. The book even carries a few Native-influenced pieces by non-Native designers like Isaac Mizrahi and Ralph Lauren. Native Fashion Now designers possess dressed presidents' wives and been finalists on Project Runway, sold their work all over the world, and noticed it acquired by museums and personal collectors. Current Native fashion can be both wearable and gorgeous and, as this quantity reveals, increasingly fashion-forward.
