Queer Eyesight introduces men to the rewards that women -- and a lot of gay men -- have lengthily reaped by thinking about the day-to-day details that make them look better, feel better, and get more out of life. Many right men have long felt that these subjects aren't for them. From Kyan's instructions on how often to wash your hair to Carson's description of why shirts will be the new ties, from Ted's approaches for ordering wine and Thom's suggestions about an improved bathroom to Jai's hints on shaking hands, Queer Eyes for the Straight Guy is filled up with clear, direct advice on the issues that confront every guy. Just like the show, the publication focuses on easy but lasting way of living transformation -- the tasks, the tasks, the modest purchases, and, most important, the brand new attitudes that immediately make a obvious difference. guidance from each of the Fab 5. But Queer Attention doesn't try to make you outfit like Carson or dance like Jai; And this is what the reserve offers: the fundamental " It's about helping you realize the very best expression of yourself -- the true you. Buy it for the house, grooming and clothing design, music and feeling, and cooking food oh the cooking. Had this once and purchasing once again (lost in a move I guess). Really buying it for 2 recipes: making a real steak and roasting potatoes and vegetables. Would work with seller again. Greatest steak ever and the aroma of the roasting fills the house and is so good. IT series never skipped funny and great tips on home style and cooking. Like many others, I though Jai's section of the publication translated much better than his helping someone obtain theatre tickets on the show, etc. Well packaged. A must have for one guys and a good reminder for those who are married.. Fun book Loved the show, like the book. great book from back in the day. It isn't a complete resource publication but it has more than enough of everything to truly get you started. BEst publication for impressing girls From fashion, to design, to grooming, to cooking, and also to socializing, this publication has it all. great reserve from back in your day. I'm glad I purchased one. Queer Eye Fabulous! Every man should very own this this book gives great advice to men and they should read it cover to cover. Loved so much I kept it for myself! Arrived needlessly to say & My one detrimental point has to do with the binding of this book --- about 20% of the web pages had writing that disappeared into the binding and was very hard to read w/o in fact breaking the spine of the publication -- poor likely to whoever do the book layout! Reasonably priced & I know it has been a while since this business had been on the air, but this book continues to be awesome! I treasured it; Both I've done countless times but now forget. a great read. Good style never gets aged. in great condition. a gift very informative and funny. Of course, the sections involving clothing and grooming are men-centric, but you don't possess to be considered a man to understand cooking and decorating out of this book. Actually had a stylist state, I hardly ever knew that when i told her to cut my hair using its grain or movement as was said during the series. The primary message is certainly they aren't likely to modification Who you are, simply make you even more presentable to the opposite sex, your coworkers, and your family.. listed.
