I don't experience bad about my neck yet, but I've concerns. . . It is designed for women who have reached the point within their life when they realize they have spent almost all their extras such as for example money, and time on everyone else but themselves. The composing strikes the right stability of humor and truth. My reading of late has been even more dense and serious, which means this was an excellent palate cleanser for ladies that is. Wonderful book. What a thoroughly enjoyable collection of essays and musing by Nora Ephron! In one essay she talks about the imaginary conversations she has with a few of her favorite chefs/cookbook authors. Reading these essays are like having a conversation with a good and witty friend. I understand that I will become having some imaginary chats with Ms. Ephron shortly! I recently saw the excellent HBO documentary Nora Ephron's son made in the quest ...if I hadn't gotten anything from the reserve (and I acquired lots) I'd joke and say at least she's saved me a lot of money as I'll not be purchasing the latest anti-aging cream in a futile attempt to turn back the clock. If you enjoy a book that makes you laugh, then makes you think, without a large amount of foul vocabulary or words you have to go look up, this is a great reserve for you. A different type of Erma Bombeck who was my mentor in the early years of my relationship and child rearing. I highly recommend the book... I recently found the wonderful HBO documentary Nora Ephron's son made in the quest to learn his late mom better and I became intrigued by the individual behind the movies. She made it clear that this entire idea is a pipe dream...and she said it with such wonderful wit. Simply Wonderful Ephron nails it in a way that makes me personally laugh. after all, the entire book is based on troubleshooting the undesirables that come with a women and age. Curl up with this book and a bottle of your preferred wine. And then I was shifted to tears with what she said. Great if you're needing a laugh. I love bright, funny, creative ladies who are so so talented. But at the same time, Ephron were able to make me cry. The first lines read like poetry. You'll laugh and feel much better about yourself. A Must for All Women Wow! Ageing is "not really for sissies" as an old actor once said. Cute summer read Really fun book, Nora understands how to tell an excellent funny and interesting story. One great plus (a lagniappe, because the Cajuns contact it) is definitely a chapter which describes her favorite books. I'm functioning my method through her list. Ephron's personal insight into her personal condition as well as the human condition, imbues every page. When I browse, at the very end of the Kindle edition, that she passed on a long time ago, I grieved. Nora is always a good read I thought We was the only woman who obsessed on the subject of the lines and wrinkles on her neck. Nora Ephron is definitely always entertaining. I love her humor when it comes to woman aging. Its a great read, especially when you begin feeling a little depressed about growing older. It's like having an extremely good friend let you know that its all likely to be okay--you're not by yourself. I was laughing aloud just like a maniac! Her passing away was our reduction. I'm sure many women callus relate with the late writer's trip through and out of the "Middle Ages. I came across this book to become an eye-opener full of cunning anecdotes and surprising charm. Then one day time on Oprah, I viewed an interview with her and she was discussing a book she simply wrote called "I Feel Bad About My Throat" and I just absolutely fell deeply in love with Nora Ephron. I place the publication down and asked my husband who was driving, easily could browse something to him. We eventually got a hold of this publication as an audiobook, and when I had to decrease to the DMV to renew my license, it made enough time go by so much faster. I chuckled out loud so often while in collection, I think people wanted me dead for having any kind of fun at the DMV. I purchased Heartburn as soon as I finished that one, that is a few hours after I started it, because it absorbed me so totally I didn't put it down until the end. And by the time I had to take my picture, I experienced to fix my make-up. She's such a powerful person but her composing is very modest - she hardly ever lets on she has been so incredibly

effective. Nora Ephron Knows How to Hit the Funny Bone! First of all, I chose this publication for an academic publication review. In the book titled "PERSONALLY I THINK Bad about My Throat and Other Thoughts on Being a Female, Nora Ephron screenwriter, novelist, maker, and film director expresses her physical, mental, and emotional outpourings on age advancement. Still in the 1st chapter, in fact just a few paragraphs into this book, I was having some doubts; Nora Ephron was a great article writer and director. Then your author switched gears, just like a vehicle going from 1st equipment directly into 4th with the sputtering and grind. We wasn't really sure what things to expect when We opened the book and began to go through. the writing felt a bit harsh. She was therefore charming speaking with Oprah, like a couple of aged girlfriends, and I longed to maintain her world. I really like that Nora owns that is her own opinion on things in life and that your thoughts and opinions could be different, and so are definitely appropriate. The more I read, the better the publication became. Soon I was laughing at the authors whimsical permutations and my husband was producing wisecracks. I guess I can see his point of view; This book was definitely not what I was expecting.. . Individually I loved this composing. I highly recommended the humorous readings in this book to my mother who is involved in numerous ladies social groups; Friday Club, Crimson Hats, Wednesday's Once a month to name several. That was the very first time I have ever heard of Nora Ephron. Sure it had been written by somebody who could afford Botox and plastic surgery but some things are timeless. Everything really is copy. And I was left considering what she stated.. Ms.. Love this book... good read hilarious Attention Women! This book is ideal for those folks women who are on the other hand of 50. Funny, and wise. It takes time to get into it. I actually didn't like this initially, however the longer I browse, the more I acquired involved with it. He agreed and I continued but this time around out loud. A funny book that acquired me nodding my head Loved this book! Females will continue to troubleshoot areas of their lives looking for the age-defying miracle concoction that may allow them to live lengthy, however retain their ageless beauty; Her purse as described was my purse, and I sensed less alone. I also discovered neck wrinkles seemingly over night, bought miracles in a jar (but knew better) and asked a doc about those red torso pimples to hear " old age" at 55. I laughed out loud several times and we all can benefit from that. Great book! Ephron discusses her neck, cheap purses and handbags, relationships, raising children, the proper apartment, aging, loss of life, and life. Arrived significantly damaged. Well done, Nora Ephron!
