kjk Five years ago on Feb. 15,2006, a young man, Jason "J-Mac" McElwain scored 20 factors in the final 3:09 mere seconds of their Senior Night final home basketball game. His heroics were captured by TV stations all across the country.I cannot wait to start to see the movie predicated on Jason "J-Macintosh" McElwain's life also to see who takes on the lead part.! Jason tells the story in his own terms, which to me is merely amazing.] on the basketball courtroom. A great book to understand about having goals and dreams and how exactly to "stay concentrated" as Jason says. He lets you know how visualization proved helpful for him. And it could for you. Great read.Many elements of his narrative built me smile while others moved me to tears. He has Asberger's; GREAT CONDITION. Team-manship nonfiction story of an autistic high school student who adores basketball. The story is informed by his parents and him. Fine photos. Heartwarming Stuff I was drawn to this tale when it initial aired on ESPN. Jason's compelling story held me up past 2:00 a.m. last night because I couldn't obtain enough of his exclusive ponderings on the importance of "concentrate" and his astonishing feat [20 points in just over 4 a few minutes of playing time! You can experience his frustration and his exhilaration and joy thru out the book. The Game of MY ENTIRE LIFE Given to grandson for his birthday. It is an excellent story written in large part by Jason himself. Not that what Jason did was so excellent, although Magic Johnson stated he doubted he could did the same thing, but that Jason can be autistic. I was so pleased with every thing he had over come and had achieved. Read the book This story of a young guy with autism who accomplishes so much more things in life than that which was expected of him early on is truly inspiring. A Compelling Story About Much More Than Basketball After seeing the tail end of Jason's recent appearance on "Larry King Live", I immediately went on line to buy "The Game of My Life". I was actually reminded of the outstanding screenplay penned by Matt Damon and Ben Affleck for his or her 1997 breakout film, "Good Will Hunting". I think it would actually be considered a great book for anybody who has an autistic child in their lifestyle. I enjoyed the trunk storie Five Stars Great story on the subject of survival in a severe world. Then again in case you are in the mood for an instant feel-good book, this will work for you. SUPER FAST SHIPPING RECEIVED THIS BOOK RAPIDLY. he appreciated the tale of someone who succeeded despite Autism. True BARGAIN. RECOMMEND THIS SELLER! good It was a good reserve but hard to get through. But worth a read . Granted it is not a scientific dtake on the globe of autism, it does touch on many of the ups and downs of coping with the disability. It can reaffirm your belief in people, in the current society. wonderful heartwarming book I've known Jason since he was 7 and I was avolunteer in his summer season school class. The reserve not only tells you where he's been but enables you to feel like you're there with him. EASILY were directing, I'd cast J-Mac to superstar as himself!! I recall crying tears of joy as I viewed Jason on the news headlines and all over the

sports channels. This book is crucial read! I examine his publication when it came out and captured glimpses of the boy I understood throughout the years and glimpses of the man he has become. I'm from the Rochester, NY area, and I remember the excitement from all the highlight films that week. Good job Jason!! I'm pleased with you!! Five Stars Very happy
