## Marrying George Clooney: Confessions from a Midlife Crisis

[continue reading](#)

While wide awake in the middle of the night time (welcome to menopause!), Amy Ferris began chronicling each one of her funny, sad, hysterical, down and dirty, and raw to the bones tales. Marrying George Clooney explores a variety of emotions experienced through this life-altering period. From googling aged boyfriends to researching obscure and fatal illnesses on the internet; from scouting five-superstar spa destinations to presenting angry, bitter, e-mail exchanges with her brother. She concerns endlessly about her husband, relies seriously on Ambien, and attempts to set up care via the Internet for her mother (who has both serious dementia and an enormous love-bubble crush on Jesus Christ)&#151; In this candid appearance at "the change," Ferris presents a humorous spin on a not-so-funny topic. Along with fantasizing about marrying George Clooney, Ferris is confronted with various other insomnia-induced thoughts and activities.all while refraining from smoking cigarettes just one single more cigarette.

Lovely morsels. Wistful, funny, unfortunate, real and reflective. I purchased this book last summer season while staying in Northeastern Pennsylvania to look after my very own mother's medical issues. I had fulfilled Amy at a bar around and enjoyed talking to her. Upon buying the book, I realized fairly quickly that this will be a go through I would prefer to enjoy slowly. It isn't that. It's a good publication and I am happy to have go through it. I loved her use of vignette writing design, which made it easy for me to put the reserve down at certain points therefore i could savor another part later on. I was in Rome the other day, and had made a decision to save the last part of the reserve for an night time when I would be sitting in one of my favorite little local joints, enjoying a genuine plate of spaghetti carbonara and a glass of Chianti. And I hope therapeutic for the writer.), but i didn't recognize that it would hit me in the center as it would. Posting her story that can compare with this. A beautiful piece of writing, and an ideal conclusion for the publication. I tried hard never to cry into my panna cotta. Browse it and feel reassured. There have been many passages in the publication with that i could commiserate and I appreciated her managing of universal designs of developing into and at night menopause years. Like searching in a (fun house) mirror. You can always stop reading. Marrying George Clooney . You will fall in love with Amy Ferris.. is not for sissies; it's for the rest of us, so we can squirm with reputation, lament a world that doesn't get us, snort-laugh at our absurdity, and believe that relief that comes with understanding we are not alone. Ferris also occurs to create well - a bonus nowadays. So if you need to explore your own Amyness while enjoying a tender/crusty love story, read this book. It's like chocolate. This reserve got me in tears at page two of the Intro because I found the words I had been too afraid to say out loud via another voice. They'll stay with you. Amy Ferris requires a bewildering time in a female's life and makes it seem less scary, even more funny, and \*survivable\*. It simply gets better and better and you also can't bear the very thought of completing it. There was something extremely vulnerable about it, and sitting there in a Roman trattoria without any help reading Amy's phrases brought my emotions about my own life and encounters of days gone by year to the top. One of the best books I've ever read One of the best books I've ever read.. The Gospel According to Amy If you're a female you borrowed from yourself the treat of scanning this book. It's a time common to numerous women between the age groups of 50 and 60 yet it continues to be a mystery to many folks. Amy Ferris exposes the ride for what it is, mostly terrifying but over before too long. She also lets us into her previous, her marriage, her relationship with her mother and so much more. That is a fast paced, delightful read. Laugh, cry and commiserate Fantastic memoir! Such a wonderful celebration of womanhood. I've recommended this book to all my close friends on facebook! I came across so much common surface with the author, who, with brutal honesty illuminates the truth of menopausal mania and it's underlying blessing, the reclaiming of a woman's soul! Good read The humor interspersed with reality holds interest. Here are the random night time musings of somebody piecing together items of past and present while working through her problems. Sigh. As a mid-life, early perimenopausal first time mom of a child, I was longing for some side-splitting rest from this reserve. Her life requires many twists and turns. Like the majority of of humanity. I particularly liked the end. It had been touching, searing, hard and real. She arises to the event and we have been left happy to possess read this book. Try it. I'm so pleased I'm not Amy Ferris, except when I am, which is when I'm becoming bold, courageous, outrageous, and deeply, scary honest. Will recommend to fellow visitors! Thank you, Amy Ferris, for bringing tears and pleasure in the same chapter, for eliciting the full range of emotions and carrying it out without being cloying or obvious. Mainly it made me think, ruminate and obtain depressed that is not what I needed from this book. Some bits will make you smile. The highs and lows of life when you decide to live it authentically are explored in great detail and color I could certainly appreciate Amy Ferris's honesty about factors that a lot of us think and feel but are afraid to put in writing, speak out loud as well as admit to ourselves that we idea it. The highs and lows of life when you decide to live it authentically are explored in great details and color. This book is NOT that funny. The reviews are better than the book and

misleading. I possibly could self associate. Some of what Dolly Parton's personality in Steel Magnolias known as "laughter through tears". So that's just what I did. I liked the format. Mainly involving her mom's illness and their past romantic relationship. It really is poignant, heartfelt and touching. I acquired anticipated the subject matter (no spoilers right here - buy the book! But it isn't hilarious by any means!! It might be that I've lost my sense of humor. Wonder if Amazon offers a funny bone A fast, relatable read. She plucks the reality from the collective thoughts of all women and speaks it with humor, vulnerability and verve. Her story has experience by many... I loved this book, the perfect read for my 10th anniversary trip with my hubby, both of us in our 50s and lastly settling into a thing that feels almost golden. Since we had been on the airplane, I mouthed "later" and returned to my immersion in the emotionally rollicking and terrifyingly close to truth occasions. When I laughed uncontrollably, which was often, my husband looked over with an elevated eyebrow. I worked well my way through this book like a bowl of popcorn, the kind with plenty of butter and salt, exactly the accompaniment to the pains, sorrows, laughs, and intrigue unrolling before my eye! Read This Book! Amy Ferris is an incredible article writer and the dearest of souls. I was completed before I knew it and left with a wistful notion there could be more. I enjoy this girl and her words. Great Job Amy This book was well written and absolutely catches the true flavor of 2 medical issues that can feel confusing and chaotic when you go through them. I found myself in tears, doubled over in laughter scanning this book. I am recommending it to my reserve club! CONGRATS Amy! She writes a raw, intimate, honest and incredibly funny reserve in nightly passages about what it means to go through menopause. Marrying George Clooney is really as funny as it is heartbreaking just like life Sometimes, you are at a stage in your life where you think you must end up being utterly losing it and you also don't actually recognize yourself. Especially chocolates. And that is a classic gift. But these phrases won't be gone . Marrying George Clooney is really as funny since it is heartbreaking exactly like life. Brilliant.
