Gerald G. occasionally years in advance. — the bisexual character of humanity and its biological and spiritual importance; the true basis of homosexuality and lesbianism — along with their private and social results; the advantages of recalling our dreams and consciously participating in them; I came across that Seth eloquently and lucidly articulated a look at of truth that I had arrived at only after great work and an extensive study of both paranormal phenomena and quantum physics.s literature, fiction, and non-fiction. .The psyche is a gestalt of aware energy where your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche's living expression, its human being manifestation.””” Jane Roberts, Speaking for SethPraise for The Seth Books, by Jane Roberts“The Seth books present an alternate map of reality with a fresh diagram of the psyche .“ ..” Jane was a prolific article writer in a variety of genres including poetry, brief stories, children’ Deepak Chopra, M.D., author of The Seven Spiritual Laws and regulations of Success“Seth was among my first metaphysical teachers. He remains a continuous way to obtain knowledge and motivation in my life. — —s energy comes through every web page —” The amazing in-depth info in the Seth books is as relevant today since it was in the first ’70s when Jane Roberts initial channeled this material. Yet you allow yourselves often to be blind to brilliant areas of your own existence. — Michael Talbot, author of The Holographic UniverseAbout the AuthorJane Roberts (May 8, 1929 – Yale University Library maintains a assortment of Jane’s teachings had an important influence on my life and function, and provided among the initial inspirations for writing Creative Visualization.” For the very first time Seth explains: Why love may be the basic language that all others spring; Shakti Gawain, writer of Innovative Visualization““The Seth books were of great benefit if you ask me on my spiritual journey and helped me to see another way of looking at the world.” —Seth, speaking solely through Jane Roberts, reveals a startling new idea of self, answering questions about the secret language of love, human being sexuality, the real origins and incredible powers of dreams, and how we choose our physical death —.As you read Seth’s words, you will gain more than just new concepts. Seth’ Marianne Williamson, author of A Return to Love“ energy that expands your consciousness and changes your thoughts about the type of reality.” — Sanaya Roman, writer of Coping with Joy“To my great surprise — and slight annoyance — how dreams can prevent chronic ailments by giving important therapeutic information; useful to all explorers of consciousness. The Language of Love I have read almost all the "Seth" books by Jane Roberts, many of them many times more than. I consider the primary 4 - "The Seth Material", "Seth Speaks", "THE TYPE of Personal reality", "THE TYPE of the Psyche". The best chapter of All the Seth books ever - "The language of Love" chapter 6 in "THE TYPE of the Psyche". It's like psychedelics without medications, truly mind expanding. I discovered the Seth books back in the late 70's. I do don't mind spending time in historic languages and the development of language in general. There is it interesting reading testimonials and responses about how people came by their first Seth book. "A friend simply happened to leave it on my counter", or "I came across it in my hand at a used publication sale", and such. Unfortunately books are a bit more expensive now. Common inn the Seth series That is a classic of the Seth series packed with wonderful wisdom and insight. Robert's Seth Series. THEREFORE I went forward and ordered a few from Jane and Rob's website. Seems to have turned out quite well. I really like Seth books. one of seth's best and section of a wonderful collection of invaluable info . While different from Seth, they really charm to me for some reason. Another great performance by Seth There is a large amount of useful information in this book. While Jane Roberts has passed on, and the initial "Michael" author doesn't channel or write Michael books any more- it seems a Slew of other "channels" then come ahead to write books and claim to channel those same entities. I cannot state with any certainty that they are or aren't "really" channeling the same entity, but personally I am quite skeptical of it and can't seem to bring myself to read any of their books. 40 years of buddhist Study and this took me to another level. To retain Seth's concepts by simply reading, does not seem possible. If you truly seek the eternal? Most sophisticated discourse! Much like all of their books I am biased, Personally i think, it offers precious insights into our collective individual psyche. Check out "Nature of the Psyche" you won't be disappointed! In generating meaning, Seth's use of verbs is remarkable! It is possible that Seth generates 'meaning' intentionally as perceptually-relativistic matter rather than finite or total one. A Classic. Great Book All Seth books are filled with knowledge that anyone may appreciate. demonstrating a really free-of-period, historically-unbound discourse, that might be impossible to end up being distorted by a religious/scientific scholarship, as been witnessed in Buddhism or contemporary linguistics. Another channeled book series I really like is "Communications From Michael" by Chelsea Quinn Yarbro. Another great Seth reserve!. among seth's best and part of a wonderful collection of invaluable information that should be browse by all! if you are seeking a true understanding of how we orient ourselves in today's' world upon this world, this is an amazing book.. It's the best of the Seth books. unlike most "new age" reading that just regurgitates what provides been written since man first became "conscious", seth's sessions stimulate the mind to explore its origins and perceptions. i recommend the seth materials to anyone who yearns to know why is us tick!. I'm thrilled to learn these early classes. I have no idea who I'd be today easily hadn't started reading this information at age 19. Another Classic. It's my favorite of the Seth books This book is outstanding. he touches on subject material that is not included in other books and proceeds to provide smart teachings. And it arrived in the mail fast. Exactly What I have been Searching for. Probably someday. It embellished my understanding and uses almost the precise terms Budhism does. A Seth/Jane Roberts book This is my third reading of the particular book in the late Ms. I've been wanting "The Early Sessions" 9 volumes but possess found them quite difficult to find at a reasonable cost on amazon. I've read the book and have passed on several copies to several friends. I have a Kindle, so this and various other Seth Books are in "my collection". It issues our understanding of cognition and specifically language with its origin (a highly controversial academic topic), while at the same time supports Chomsky's intuition of innate vocabulary acquisition. Insightful I absolutely adore the Seth Material generally b/c it has caused me to essentially connect with also to myself, in addition to made me more aware of my fellow man and how essential most of us are. One thing I'd like to add. It needs to be catalogued and disseminated. This is a robust book.e. Scanning this Seth's material, you might suspect an integral Seth's intent - i. That is

spirituality without the "Pollyanna non-sense" (as Seth may state) The rule is normally "you create your reality" Fascinating information on how we work in our inner realms to generate the truth we see outside. Belongs in everyone's library. The kindle versions are more reasonable. It can change your perspective on life Seth hits again. Another great, memorable book by Jane Roberts/Seth. Five Stars Great!
