Each chapter in this book is an interview with an expert in a certain section of health, wellness or even technology. (I looked at her site after reading the publication. Her personal background is quite a tale. This lady banked her very own stem cells and then waited three years to find an American doctor who would do the surgery she had find out about (carried out in Japan) to regrow her own breasts from those stem cells. Five Stars very nice Five Stars Love Suzanne's dedication to find the truth out. Some of it is "expensive" plus some of it simply plain old doing what must be done, such as diet and exercise. A large section of this amazing development is because of this woman. I had not been an enormous TV watcher, so I am not really a "fan" especially. She is a good lady, and is trying to educate anyone who'll read her book. I have bought her organic makeup, mascara, and eye shadow, and the products have every ingredient listed, and I love them very well, will purchase once again. She writes in an exceedingly friendly, readable style. Excellent info.. And save a few bucks and analysis anti-aging by yourself. S. Lots of good info about both procedures and resources here. No matter whether you can't afford to do all that Suzanne does, you may make changes that may affect how you feel immediately. As a result, we all have been benefiting in aging even more gracefully. A lot of very good news here, if you give consideration. It makes me less fearful into the future, and I'm 81. Great info! This is actually the first book I've read by Suzanne Somers but I have to say that I must say I appreciate her perspective. As a result of her own personal experiences with breast tumor, she researched natural healing and longterm health and fitness strategies. Excellent book on cutting-edge doctors in our country This is actually the only book I have read from Suzanne Somers, and I recommend it if you are looking to read about some amazing doctors and their leading edge healing work. They share groundbreaking research and concepts related to supplementation, nourishment, cellular aging and ways to potentially reverse this process, nanotechnology, and the importance of detoxifying our bodies on a regular basis. Sure, it is possible to take Astragalus supplements instead, but that causes severe side effects. She envisions the possibility that we can all live to take pleasure from our golden years as lively, healthy, active individuals. It shifts your considering and provides tons of useful details. Great read!! Don't miss this one! I learned SO much Superb book! I learned so much, and I have changed just how I look at nutrition and just how my body works. Wow!, are excellent. I recommend it!) I've no problems with anyone having a business doing what she does easily can use the merchandise or information and feel better due to it :-) The doctors she interviews could have you thinking why on earth (well, we know why, don't we?.) many people are not getting the advantage of what they understand, and the recovery modalities they make use of on patients, with large success . We try to stay through to functional anti-aging "alternative" medical research and details therefore I love Suzanne's publication "Bombshell". \$600! I'm concerned, this is the best up to now! Suzanne can be an intelligent and innovative one who deserves our deepest respect and gratitude for her dedicated effort and time to college us on what's POSSIBLE. Buying this publication was the best thing I've done for myself all 12 months. Not covered by insurance and when you DIY, it's very hard to get the proper balance of hormones - not to mention possibly harmful. The telomerase/TA-65 health supplement? The best day time ever will be when "standard" healthcare in the U. every day of the year. merges practical preventive care (in every forms!) into its "insurance covered" programs so those folks that don't get the "one pill" regime of the typical healthcare paradigm will end up being included... Thank you Suzanne Somers! Suzanne Somers continues to amaze me and I continue steadily to admire and respect her a lot more. I hope I can use this location to thank her for her on-going analysis and sharing her details. There's beginning to become more acceptance of natural healing and medication in the us. She

is very honest, and likeable. Keep up the good function, Ms. Somers. America still has a way to go to catch up with Europe, we need your input. Suzanne is amazing I have learned a whole lot from her wisdom, originally when she started posting her food combining techniques. Since then, I've made many naturopathic choices during peri/post menopausal stages, many due to Suzanne's analysis. For an actress who could oftentimes be hanging out in the French Riviera somewhere, I am extremely grateful that she instead has chosen this route of teaching us what she learned with respect to taking care of herself in a healthy way. I try to follow alternative medication news, but there's a lot of stuff here that I didn't find out about. Many thanks to the generous, caring lady.

The Booi Bombshell This is a wondrous compilation of new advances in anti-aging research that will aid humanity in reversing the bodily aging process. Suzanne has spent therefore any hours accumulating this research and does many Q&A with noted doctors and scientists for our understanding. A few of these things she refers to are now available to us and some are in the process of becoming available in time. Suzanne healed her personal breasts to regrow after surgery with her very own stem cells. This is a worthy publication to enhance one's very own comprehension on what is truly feasible and remove limitation from one's opinions. Suzanne brought so much more useable info and consciousness in this book plus the directories, brands, doctors, etc. My deepest gratitude to her. Barbara Wish I'd browse the negative evaluations - or at least looked at the library's copy first.. Bio-identical Hormone Therapy? Read the rest of the low critiques, combine them in a single paragraph, and you will have my review. To begin with, the book is written in a difficult-to-read interview style. I skipped all of the conversation BS. Be cautious if/when you try Somers' regimen. Upside, the information is there and knowledge is key. I have several other of her books through the years but, as far as I'; Her vision of "later years" is nothing like we view today.. Downside is, unfortunately, the majority of us do not have the financial resources to implement. Secondly, so when someone else said, we mere mortals can hardly afford to buy healthful, organic foods and some supplements - much less all the stuff she recommends. Research side effects and cost. . Five Stars love reading this book, plenty of great information, written well, easy reading Excellent book! Whether you have browse a thousand health-related books or this is your first, don't miss this one! I learned Thus much! Very important and powerful. It will give you necessary information that you can use to make your daily life better. Readable, interesting, well written. Five Stars Well crafted and footnoted. Suzanne looking better constantly. Haven't completed reading it, but very good up to now. She tells just what she does on her behalf health regimen.
