The author of this reserve has taught me other ways of finding even more silver, gold and precious stones than I ever truly imagined. But this woman has actually charmed me with her wealth of knowledge about jewelry and metals. 925 silver necklace (40. I am not going to give anything aside but you can be assured that I am looking at for some extra products when I head to my next garage area sale tomorrow :) This writer knows what she is talking about and I enjoyed her personal stories among the gems of information that are approved along. Shame I am not really in US or I'd become hunting her out to observe if she wants to come to yard sales with me - strongly suggested. Lisa Oliver - Author - Garage Sales 101: Turning Trash to Cash Excellent reference book When I purchased this reserve, I had recently been involved in precious metals. So, when I received it, I had not been expecting anything fresh. I was pleasantly surprised to learn how to make intelligent searches on the internet, and many other great tips. Highly recommend this book, especially the abundant feeling this reserve projects. I couldn't believe all of the equipment being used. OMG! What a book! I never thought finding gold and silver was very easy. I've witnessed a significant gold mining procedure with my own eyes. The ship that I was on got over 4,300 passengers and there were 6 ships in one port at the same time. This is working for me. There were dump trucks how big is small planets, tremendous shakers, humongous drills and massive other pieces of machinery that I've no notion of their titles or purpose. I'll remember the earth shaking explosions, from the blasting powder, with dirt and particles being hurled in to the atmosphere. I've tried recreational gold panning myself. Rewarding in the fact that I was outdoors, not really that I was getting very much gold. It had been fun and satisfying. I was on a 7 day time cruise and these ships make these journeys all year long. It was plenty of backbreaking tiresome labor, nonetheless it was fun. So very much value in this simply written book I must be honest I have already been a lawn sale fanatic for years but like the writer of this book I mostly concentrated on large ticket items I could offer at a profit on an auction site, as well as my very own garage sales.. Over and over and over again. Excellent information, very informative The information in this book is more precious than silver and gold because without the right understanding you can't know what is treasure and what is trash. 925 silver bracelet, several silver charms and several other items at some ridiculously low prices. Literally hundreds of them. Those of you who've had this knowledge can relate with what I'm stating. I purchased my wife's gemstone on one of these trips years ago. After reading elements of this book, I decided to become a looker this period and not a purchaser. As I wondered around these towns, I kept looking and considering all the untold thousands of dollars in treasure that lay within the walls of the shops. I was taking into consideration the behemoth mining procedure I has noticed years earlier. My goodness. Truth is, all the gold I ever found wouldn't buy more than enough gasoline to fill my car even once. While I was reading it, I was enroute to the Virgin Islands and I begin to think. Useful and Insightful! Safe deposit boxes, jewelry boxes, fingertips, wrists, etc. The author of this reserve tells where another percentage of this treasure winds up, and then tells you how exactly to look for it. I've just acquired 2 weekends to try her methods, and in this small amount of time it has worked therefore well, that I've bought Dark Hills Gold earrings, a . Are just some of the ideas I learned worried the astute usage of a magnet (not really what you believe), the LOA connection (I sooo believe in this) and the "other than jewelry" idea. 9 grams), a . I am to many port cities and everyone is usually jammed with jewelry stores. In all fairness though, I have to tell that I did pay \$100.00 for a 1/2 karat (solitaire) gemstone marquise cut ring, set in 14k white gold. I could use 2 techniques comprehensive by the author to determine that the gemstone was genuine. I possibly could go on and on raving about my discovers, but you don't want to listen to of my success. Read the book and have your own tales to tell. I'm not someone who actively is out and appears for gold and silver items, but was glad to have read this book. All I could say if you want to earn money . I took this reserve on a very latest Caribbean cruise for something to read at night.. All I can say if you need to earn money at your personal pace, all the details is in this reserve. I thought, "all of this treasure provides to find yourself somewhere", and it can. I really can't wait for the weekends right now because I'm using her solutions to save for another cruise. I learned so very much about the value of my very own jewelry, that I understand I'll take the data and will utilize it repeatedly later on. The sniping section was very helpful for a man like me who's 15 yrs behind everyone on my computer skills, gotta large amount of catching up to accomplish! review of cheap silver and gold This book is a powerhouse of information on anything related to obtaining cheap silver and gold for the hobbyist, entrepreneur, or business people alike. Jewelry sales outside the US is quite big business.
